Morning Oregonian.

VOL. 28—NO. 8668. PORTLAND, OREGON, TUESDAY, FEBRUARY 28, 1888. PRICE FIVE CENTS.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans.
W. T. COLEMAN & CO. Ag'ts, San Francisco

The Highway of Nations.

The broad Atlantic is ever a stormy thoroughfare. Yet blow the winds ever so fiercely, and ride the waves ever so loftily, seamen must man the good ships, tourists will brave the passage and commercial travelers and buyers must visit the centers of foreign trade and manufacture. That atrocious malady, sea sickness, together with colicky pains and much inward uneasiness, is often endured when Hostetter's Stomach Bitters would have fortified the voyagers against them. Sea captains and in fact all old salts and veteran travelers, are acquainted with the protective value of this estimable preventive and remedy and are rarely unprovided with it. Emigrants to the far West should use it as a safeguard against malaria. Seek the aid of the Bitters for dyspepsia, constipation, liver complaint, kidney troubles, and all ailments that impair the harmonious and vigorous action of the vital powers.

NOT ONE ESCAPED.

A Vallejo Ferry Boat Wrecked by an Explosion.

TWENTY FIVE PEOPLE KILLED

And the Others Suffering from Injuries Received—Fourteen of the Bodies Taken Out—Flames Add to the Horror.

SOUTH VALLEJO, Feb 27.—This morning there happened the most terrible fatality in the history of Vallejo. About 6:10, just after the whistle had blown to signal the departure of the steamer Julia from the South Vallejo wharf on her first trip and before she had got loose from her moorings, a terrible explosion occurred, racking the vessel through its whole extent and filling the air with thick volumes of smoke. The early trip takes all workingmen living on the Vallejo side to their work in various industries on the Contra Costa side, and those going to San Francisco; consequently there were a great many passengers on board. The morning being cool, most of them had gathered about the warm smokestack in the lower cabin. As the explosion came from the boiler these men were directly exposed to the terrible shock. Besides this, petroleum used for fuel was scattered through the steamer, setting it on fire. There was terrible confusion and heartrending cries from crushed and burning men. The force of the explosion is shown on a body that was dragged out of the wreck by Constable Logan without head or limbs and utterly unrecognizable. The burning steamer set fire to the wharf and for hours the flames held sway until the boat was burned to the water's edge. As far as can be learned eight or ten are killed or missing and many badly injured.

Five bodies have been recovered so far. They are those of Michael Brounelly, Albert Madison, Olli Nelson and two burned beyond recognition. John Olives was rescued alive, but died from injuries. It is believed that ten bodies still remain on the steamer. Capt. Gedge and most of the crew escaped with slight injuries.

Among the missing are Edward and James Rue, John Compton, Timothy Hurley, Joseph Williams, Wm. Connelly, John Hodgkins, Michael Delas, Wm. Lemar, G. C. McDonald and a colored porter named Clark.

When news of the disaster reached North Vallejo the fire department turned out, but was unable to do anything toward saving the wharf. The Starr flouring mills were threatened, but luckily escaped. There was no water to combat the fire, and as the tide was out the engines were unable to go to work. Over 600 feet of wharf was destroyed, but the fire was under control by 1 o'clock.

Up to 1 o'clock nine bodies had been recovered, but only seven were identified. In addition to the names already given the following have been identified: Joseph Fragas, longshoreman; Wm. Lamar, shipping clerk; Melvin Hodgkins, tallyman for the Puget Sound Lumber Company, and a man named Higgins.

WORSE AND WORSE

It is declared that there were sixty seven people on board, of whom only seventeen have been accounted for, and the fear is now entertained that the calamity is much more serious than at first thought, indicating that forty persons were killed. The disaster was due to the explosion of one of the petroleum vats. Within a few minutes after the explosion the steamer sank in the mud. The water now covers her upper deck and all that can be seen of her is her flagstaff. The wharf caught fire and is still burning. The telegraph office was also destroyed. The full scope of the disaster can not be known for several days.

FOURTEEN BODIES TAKEN OUT

VALLEJO, Feb 27.—At 4 P. M. the coroner decided to hold an inquest over the bodies that had been recovered for the purpose of identifying them. It was no easy task, as all the bodies were more or less disfigured. For instance, in one corner of the shed lay a mass of human remains so charred that it was impossible to identify them except by scraps of clothing on the body. Near by lay another body, the skull cleft in twain and the hands blown off. The face of still another body was a mass of raw flesh on account of burns. Legs were broken in several places.

When the jurors' labors were suspended they had identified thirteen bodies and one remained unidentified. Eight of the men who met death had wives and families, while five were single.

Searchers are still at work on the wreck, trying to find more missing men.

Mrs. Terrier, wife of a gunner at the Mare Island navy yard, seems to have been the only woman on board. She was badly scalded about the head and arms.

Unrecovered bodies are now thought to number eleven. It is supposed that exclusive of the crew there were fifty two passengers on board, making sixty three, and not a single one escaped without injuries more or less serious.

THE WORK OF IDENTIFICATION

VALLEJO, Feb 27.—At 4 o'clock it was known that out of twenty four missing men there remained still ten to account for. Deputy Coroner Whittaker, who had been on the scene all day, decided to hold an inquest for the purpose of identifying the bodies. From the many standing round he speedily selected a jury, and after they had been sworn identification was commenced. The work was not so easy, as all the bodies were more or less disfigured.

In the shed only jurors and press representatives were allowed, but outside there were crowds of anxious ones, and many a cry was heard as, peering over the gates or between the bars, a glimpse was caught of some familiar body.

When the jury's labors were suspended they had identified thirteen, and by inquiring among those round, the following list was compiled: Olof Nielsen, fisherman, aged 23 years, single; Michael Brannelly, laborer in a lumber yard, 35 years old, leaves six children and a wife in the insane asylum; Michael Higgins, worked at the smelting works, about 40 years old, leaves a wife and two children; Edward Hull, apprentice moulder, 20 years old, native of California, single; James Rule, body not recovered yet, brother of above, 23 years old, native of California, single; Albert Mattison, laborer at lumber yards, 43 years old, single; William Connelly, laborer, 58 years of age, leaves a wife and two children; William Lemore, shipping clerk, 2[illegible] years old, leaves a wife and two children; M. G. Hodgkins, lumber tallyman at Port Costa, leaves a wife; Joseph Frogas, assistant pilot of the Julia, age 60 years, leaves a wife and five children; John Bravick, employed in a lumber yard, 35 years old, single; Theodore Stark, machinist, from Mississippi, 41 years old, leaves a wife but no children; John Brandon, laborer, 38 years old, leaves a wife and two children; Timothy Cain, 40 years old, engaged as mill hand at the Starr mills, leaves a wife and two children.

At 5 o'clock, when the work of the jury was suspended, there still remained one unidentified body, and searchers were still at work on the wreck trying to find more of the missing men. A list of the wounded is difficult to give, because they were all taken to their own homes.

FORTY NINE ON BOARD

The number on board the Julia Capt. Gedge gives as follows: Three through passengers for San Francisco, thirty five for Vallejo Junction and eleven officers and crew, making in all forty nine, instead of sixty three as was generally supposed. One body, that of Timothy Kane, was recognized by a porous plaster on the side, the poor fellow's wife having put it on the night before for him. His head was simply a charred mass of black matter.

In the destruction of the wharf the sheds, telegraph station and ticket office were included, as well as four passenger and freight cars, the loss of which amounts to about $250,000.

As the night closed in the search for bodies had to be given up. It is thought that some will never be recovered, through being carried out to sea.

The inquest will be continued at 10 o'clock tomorrow morning.

Mrs. Ferrier, wife of Gunner Ferrier, U. S. N., fell from the saloon deck to the berth deck. She threw a shawl over her head, and crying to those within hearing distance to cover up their faces, she jumped overboard. She was picked up by a boat from a ship lying at a mill, and taken to her home.

While there seems to be a general impression that the explosion came from the boilers, experts say that if such was the case the smokestack would have been blown out, whereas it stood to the last.

THE BOILER EXPLODED

Doubt as to whether it was the petroleum tanks or the boiler which burst has been removed. A diver from San Francisco was at work for three hours on the wreck, and declares positively that the two petroleum tanks are intact and the ends of one boiler are blown entirely out, one end being in one part of the boat and the other in another. This would seem to strengthen the theory that the boilers were in an unsafe condition.

AGAINST PORTLAND.

President Corbin Throwing his Influence with Spokane Falls.

SPOKANE FALLS, W. T., Feb 27.—Mr. D. C. Corbin, president of the Coeur d'Alene Railroad & Navigation Company, has returned from his trip East. In an interview with a Chronicle man on Saturday he was asked if there was any truth in the statement that his company had bought out the Washington & Idaho line. He replied that he could not make the intentions of either corporation public, but would assure the people that arrangements had been made to cut off the connections of this line with the South Fork mines. He added: "This is a great aid to your city. Many of your citizens have been wildly clamoring for this line, which is a scheme to connect the Coeur d'Alenes with Portland direct, not only that it would take away a considerable [illegible] but [illegible] the Falls [illegible] great advantage [illegible] received by [illegible]." Mr. Corbin stated that he [illegible] other extensions to the road, and added that the rolling stock of the company will be largely increased.

BODY FOUND

A telephonic special to THE OREGONIAN correspondent here states that the body of E. H. Jerome, one of the passengers of the ill-fated Spokane, the boat which capsized in the waters of the South Fork on the 2d of April last year near Kingston, was found to-day in the river about three miles below the scene of the disaster by two men named Hull and Smith, who were fishing in the river. The body was horribly decomposed. Mr. Jerome lived in Lewiston.

A GUILTY PAIR.

A Cattleman Killed While Pursuing His Faithless Wife.

TOMBSTONE, A. T., Feb 27.—About a week ago Charles Williams eloped from Nacosari, Sonora, with the wife of Jack Martin, a cattleman. The woman appropriated $3000 and a gold watch and chain belonging to Martin, while Williams scattered the horses belonging to Martin and neighbors to prevent pursuit. The day following Martin procured horses and a posse and started in pursuit. This afternoon he overtook the party in a canyon near Hill's ranch on the San Pedro. As soon as Williams saw Martin he opened fire on him, the shot passing through the body and causing instant death. The posse returned to Fairbanks for reinforcements, securing which they again started after Williams and the woman. Both Williams and the woman are heavily armed and declare they will not be taken alive.

EMERGING FROM HER LONG SLEEP

The Remarkable Trance of Laura Webster of San Francisco

SAN FRANCISCO, Feb 27.—Laura Webster, who has for the past three months and a half been lying in a death like cataleptic trance, is beginning to emerge from her long slumber. She is gradually getting brighter, but the return is so very gradual that those who are about her can scarcely notice an advance. Two weeks ago she surprised her attendants with an intelligible sentence about her food, the first connected remark she has made since her first attack. A few days later she gave them another surprise by stating that she wished to get up. Her wish was granted, and leaning on her sister's arm she walked across the room. She does not open her eyes when she speaks, and seems to be still asleep. She will speak to no one but her sister, whose questions she generally answers.

FROM VANCOUVER

Death of a Pioneer Catholic Woman—Grading for a Railroad Begins

VANCOUVER, W. T., Feb 27.—Madam Lurier, niece of the late Archbishop Blanchet of Oregon and of Bishop Blanchet of this diocese, died this afternoon at the hospital of the Sisters of Charity. She was born in Quebec, Canada, about seventy five years ago and came to Oregon about 1846. The funeral is to take place from St. James cathedral Wednesday at 9:30 A. M. She leaves a host of friends in Oregon, Washington and San Jose, Cal. She leaves a sister near Olympia, W. T.

Grading within the city limits was commenced to-day on the Vancouver, Klickitat & Yakima railroad by Contractor Malone with a large force of men, sufficient to push the grading rapidly. There is great rejoicing among all classes—even croakers, mossbacks and doubters are all happy.

OTHER COAST DISPATCHES

MURDERED FOR HIS MONEY

HELENA, Mon., Feb 27.—A Fort Assinaboine special says: While Sergeant Wallace was out exercising some horses Saturday afternoon he came upon the dead body of a man, apparently a laborer, in the snow about a mile from the post. His clothes were saturated with water and stuck together with clotted blood from a gash two inches long on the top of the head, and an inch and a half in length on the left hand. On removal to the post the body was identified as that of James Lynch, a section hand who had been working for the Manitoba railroad. At a post mortem examination it was concluded to be a case of murder. Lynch was last seen on February 22, when he with a number of companions was carousing in a saloon. He had considerable money at the time, and it is supposed the crime was committed for the purpose of robbery. Shouts were heard the same night from the direction in which the body was found, but were not heeded at the time. Capt. Bomus with a detachment left for Box Elder this morning, and returned this evening with Patrick Grugan, the suspected murderer. On his clothes were stains of blood.

ON A HOT TRAIL.

TUCSON, A. T., Feb 27.—W. G. Wharf, one of the posse pursuing the train robbers, returned this morning. He says that when he left the posse in the Animas valley Saturday, the Indian trailers declared they would have the robbers or a fight on the next day. The trail had never been lost from the time it was struck.

The trail led over mountains and through canyons and rocky ravines, but the Papago Indian trailers never lost the trail. At many intervals letters and other evidence of the robbery had been dropped. When the posse reached Hearst's ranch they had been without food twenty-six hours. No one was at the ranch. They found beans, rice and flour, helped themselves, and after a short rest pushed ahead. The Indians reported the trail less than eight hours old. It led from Hearst's across the valley into Sonora. Two of the robbers had mounted horses two miles from the scene of the robbery and had ridden most of the way. In crossing the valleys the robbers were on foot leading their horses. There is strong evidence that from $10,000 to $15,000 in gold coin was taken by the robbers.

THE CHINESE CONCESSIONS

SAN FRANCISCO, Feb 27.—W. Douglas Plowden, secretary to Count Mitkiewicz of the famous Chinese concessions, received on Saturday a long letter from the count, who is stopping in New York, in which, regarding the concessions, the latter says: "The telephone concessions are granted the company and the full amount, $6,000,000 subscribed. I expect to go to China in about two months. It is mere nonsense for anybody to think China can break these contracts. The wording in the concessions is such that the contract cannot be broken except by limitation."

SALEM ITEMS

SALEM, Feb 27.—Judge Wm. Ramsey to-day wrote his resignation as mayor of Salem and left with his family on the afternoon train for Pendleton, where they will in future reside. His successor will be elected at a meeting of the council two weeks hence. During the interregnum Recorder Strickle will be ex officio mayor.

The residence of Rev. J. L. Parrish, just northeast of the boundary of Salem, caught fire to-day from a defective flue, and the upper portion of the building was gutted before the blaze was checked by the fire department. The damage will reach probably $1000, insurance $[illegible].

A JEALOUS MAN KILLED

HELENA, M. T., Feb 27.—Billings special: News is received here that on the 22d instant D. C. Dye was killed by Victor Arland, at Arland postoffice, Wyo. T., about 140 miles from Billings. Particulars are not given, but it is known that on the day before the encounter Dye, who is very jealous of his wife, had a fight at Arland's place with some person whose name was not learned, and on Dye's return from his ranch, armed with a Winchester to take revenge on his adversary, Arland interposed to prevent a breach of the peace, and it is supposed shot him in self defense.

DEATH ON THE STREET

SAN FRANCISCO, Feb 27.—A man fell to the sidewalk on the street this morning. Blood poured from his mouth. A number of citizens ran to his assistance and he was taken with all speed to the receiving hospital, but he died on the way and was taken to the morgue instead. It was evident that he had died of consumption. In his pockets were found $812 in gold, silver and greenbacks. His name was found to be Patrick Deveny.

ROUGH ON VICTORIA

VANCOUVER, B. C., Feb 27.—Capt. Webber, superintendent of the Canadian Pacific China steamship line, has received a communication from England sustaining his action in refusing to allow steamers to call at Victoria. The owners say it is utterly impossible in the present condition of the Victoria harbor to permit large ocean steamers to call there and land mails, passengers or freight.

A NOTABLE SOCIAL EVENT

NOGALES, A. T., Feb 27.—The most notable social event that ever occurred in the state of Sonora took place at Hermosillo Saturday night. The occasion was the marriage of Vice Governor and acting Governor Ramon Corral to Miss Am[illegible], daughter of Senor Don Vicente Escalente, a prominent citizen and Mexican statesman.

NEW STEAMER SCHEDULE

OLYMPIA, Feb 27.—The O. R. & N. Co.'s new steamer schedule went into effect here yesterday. Hereafter the steamer Hayward will leave for Seattle every day except Monday at 6 A. M., returning at 1:30 P. M. the same day. On Monday the steamer will arrive at 11 and lie over till Tuesday.

WOODCHOPPERS ARRESTED

WINNEMUCCA, Nev., Feb 27.—U. S. Marshal Kelly arrested five or six woodchoppers at Bullion mountain for cutting firewood on public lands and disposing of it for mining and domestic purposes. They will be taken to Carson to appear before Judge Sabin in the U. S. district court.

TYPHUS FEVER AND SMALLPOX

SAN FRANCISCO, Feb 27.—Typhus fever has made its appearance among passengers on the steamer City of Peking, which arrived from China about a week ago with smallpox on board and has [illegible] quarantine. Three persons have died from fever.

LARGE CONSIGNMENT OF OPIUM

SAN FRANCISCO, Feb 27.—The steamer San Pablo, which arrived from China Saturday, brought 9600 pounds of Lin Yuen opium from Macao. The duty paid was $[illegible].

PROSPERITY AT COLFAX

COLFAX, W. T., Feb 27.—The assessable property of Colfax, assessed at half value, reaches nearly $1,[illegible],000, a gain over last year of $260,000.

If you are tired taking the large old fashioned griping pills, try Carter's Little Liver Pills and take some comfort. A man can't stand everything. One pill a dose. Try them.

7 Oaks for rheumatism, neuralgia, toothache, chills and fever, colds and coughs. All druggists.

THE GREAT STRIKE.

The Company Sends Out a Few Passenger Trains.

BUT NOT A FREIGHT WHEEL TURNS

Sobriety and Good Conduct Prevail Among the Strikers—A Talk with Chief Engineer Arthur—The Company's Efforts

CHICAGO, Feb 27.—A few minutes before 4 o'clock this morning the Chicago, Burlington & Quincy yards at Canal and Sixteenth streets presented their usual appearance. The early morning mail train had left on time and the switch engines were at work. One engineer took a switch train to the Chicago & Atlantic junction shortly before 4 o'clock. He said he had heard of no order to strike and that he would certainly take his train to the junction and run the engine back to the roundhouse. Other engineers of switch engines also said they had not been ordered to strike. At 4:30 there was the usual movement of cars at the freight and switching station at Eighteenth street and Western avenue, where the cars for the East and stock yards are handled.

Just before the time appointed for the strike Train Master Pope issued an order that no trains should be moved west. This was taken by the trainmen in the yards as a confession that the company had secured no men worth mentioning, and that the rolling stock would in a moment more be practically tied up. At 4 o'clock precisely switch engine 417 went into the West Avenue roundhouse. Three others soon followed and the engineers and firemen quit work and the strike was on in earnest.

TRAINS AT A STANDSTILL

CHICAGO, Feb 27.—Three suburban trains were the only ones to come in over the Burlington road up to 10 this morning, and the engines of these were in charge of officials of the road. The only train to leave the depot up to 10 o'clock was the fast mail, which departed at 3 o'clock manned by an engineer and fireman from the Brotherhood. General Manager Stone said this morning that all of the 1600 engineers and firemen employed by the road struck, with the single exception of an engineer named Galesburg.

The superintendent's office this morning is crowded with applicants for vacant positions. They were put through an examination, and before 11 o'clock about fifty applicants had been accepted and sent to the yards. The company has not yet attempted to move any freight trains, but they will start their noon passenger trains for Missouri river points as usual. No trouble is anticipated from train men.

A TALK WITH CHIEF ENGINEER ARTHUR.

CHICAGO, Feb 27.—Chief Engineer Arthur, in an interview this evening, said: "The publication by General Manager Stone of all the propositions offered by the men tends to mislead the public. We were willing to discuss these propositions one by one, and in case we failed to convince Mr. Stone that they were just and fair we would have made concessions. The strike did not occur because of the schedule, because when the question of wages was reached Mr. Stone refused to do anything at all. We receded from our first proposition and offered to accept 3½ cents, which Stone refused in the most positive manner. He made no proposition to us at all, and the fight now is purely on the question of pay. Mr. Stone says we want to put unskilled labor on a par with skilled labor. We deny the assumption that there is no unskilled labor on the lines of any road in the Union. Does Mr. Stone mean to say that he has unskilled engineers on any branch of his road? Would he go into court, in case of a damage suit, and swear that he had? Would Mr. Stone like to have the public believe engineers on the branch lines are inferior to those on the main lines? If an engineer who runs a limited express is willing that an engineer who runs a common train should have the same pay he does, why should the company object?"

Mr. Arthur did not think the Knights of Labor would help the Burlington in any way. Whatever individual members of the Brotherhood may have done, he had never interfered in a Knights of Labor strike.

AN ACCIDENT

The first accident to occur following the commencement of the strike took place this afternoon at Naperville, Ills. No one was killed, but the results could hardly be called trifling. Six men were more or less injured. Passenger train No. 2, on which C. F. Geyre, general foreman of the Burlington shops at Aurora, was acting as engineer, ran short of steam about 3 P. M. The engine was cut loose from the train to run ahead, and then in coming back to again couple on to the train became to a certain extent unmanageable on a down grade and collided with the cars. Acting engineer General Foreman Geyre had his nose cut, and a temporary fireman named Parsons was cut on the shoulder and leg. George Clark, mail clerk, had his face cut and back injured. Wm. Stenson, mail clerk, knee bruised, and T. Foster, trainman, of Aurora, arm and knee bruised. The rolling stock was severely rattled, but none was derailed.

Another accident occurred near Council Bluffs, particulars of which reached Chicago late. It seems that Master Mechanic Bradenstine was ordered to take the Kansas City train out, and when near Pacific Junction was confronted by an engine standing on a crossing. He ran his engine into it, and a warrant was sworn out for his arrest for failing to stop at the crossing. No one was hurt by the collision.

A K. OF L. DECLARATION

At a meeting of the district assembly of the Knights of Labor of this section to-night, a resolution was adopted deprecating the report that the Knights of Labor would aid the Burlington road in the fight against their engineers. The resolution said, in part: "Without going into an examination of the truth or falsity of charges of alleged bad faith against us on the part of the Brotherhood, this executive board is unqualifiedly against any of its district members taking the places of these striking workers, and we call on members of our order everywhere to refuse under any and all circumstances to become tools of this corporation in its hour of trouble."

President Perkins of the Burlington arrived from the East to-day. He regrets the strike and thinks the engineers are making a mistake in attempting to force the railroad to unreasonable terms. He agrees entirely with the position taken by General Manager Stone.

NOTICE TO CONNECTING LINES

CHICAGO, Feb 27.—The Burlington road this evening sent out notice to all connecting lines that it will probably be a week or more before the company will be able to receive freight from them, and asking that it be given to other roads.

This afternoon 600 of the freight handlers of the C. B. & Q. line were laid off and every freight office in the city shut down in consequence of the engineers' strike. These are the same men who obtained work during the freight handlers' strike of 1886, and are said to be loyal to the company, but have to be laid off as no work remains for them to do.

AT DENVER.

The Men Orderly—Only One Train Sent Out by the Company

DENVER, Col., Feb 27.—The situation of the Burlington strike to-night remains unchanged. The men are all orderly, and during the day have been gathered in little groups around the shops and the Union depot discussing the situation and waiting instructions from headquarters at Chicago. They say they will not make any objection to the company manning the engines and running them out, if possible for them to do so.

The only train that left here to-day was the Chicago express, scheduled 10 A. M. As the hour approached for the departure of the train, the crowd about the depot increased, as it had been reported that the strikers had expressed a willingness to run the mail train, but would not allow the departure of baggage, express matter or passengers. The train, when backed down to the depot, consisted of an engine and a single car, of a mixed nature, designed to carry mail, baggage and passengers. While awaiting for orders to pull out, arrangements were made by the company to pull out with full train. Consequently passenger coaches were filled in between the locomotive and mail car, and at 2:05 pulled out from Union depot with no demonstration on the part of the engineers, a large party of whom were collected on the platform. The engine was in charge of an old B. & M. engineer named Dickinson, and a non union man. He consented to take the train to Cook, where the company have arrangements to have it taken through to Omaha.

General Agent Crosby to-day received instructions to advertise for engineers, and will employ all applicants who can pass an examination. The company's officials here refuse to discuss the situation, but other railroad men express an opinion that the siege will be a hard and a long one unless the Knights of Labor interfere.

AT ST. LOUIS.

Passenger Trains Moving but No Freight Being Handled

ST. LOUIS, Feb 27.—No freight was moved on the Chicago, Burlington & Quincy road at this point to-day. Passenger trains, however, in this vicinity ran as usual. Every engineer and fireman quit, but the officials were in a measure prepared. Superintendent Levi of Keokuk telegraphs that passenger trains are moving all right on the Keokuk line with new men, and that he hopes to keep them going. Burlington officials here and East St. Louis say they hope to get freight traffic in a fair shape in a few days. They expect to pick up enough men to man the trains. This division of the strikers are inclined to the belief that their expectations will not be realized.

AT OTHER POINTS

AT KANSAS CITY.

KANSAS CITY, Feb 27.—The strike of engineers on the Chicago, Burlington & Quincy system was severely felt here to-day. The 7:10 fast train for Chicago got away at 9 o'clock with the roundhouse foreman in charge of the engine. Other passenger trains arrived and departed to-day several hours behind schedule time. Men are applying in considerable numbers at the company's office here to succeed the strikers.

As a result of the strike it was developed this afternoon at 4 o'clock that the Rock Island had quietly put some Burlington cars in its freight trains with the apparent intention of helping the latter road. The Rock Island engineers on discovering this ran every engine in the yards into the round house, leaving a score of freight trains in the yards. The consequence is a complete tie up of the Rock Island freight traffic for to-night.

The Chicago express on the Burlington road was sent out on time to-night with a former cable car gripman. While at the depot some miscreant cut the air brake hose and also let the water out of the tender, necessitating the substitution of another engine. It is presumed to be the work of outsiders, as all the engineers have behaved in an excellent manner.

HOW THE COAST IS AFFECTED

SAN FRANCISCO, Feb 27.—The strike of engineers and firemen on the Chicago, Burlington & Quincy line affects freight and passenger traffic between this coast and the East only in a small way. Richard Gray, general freight agent of the Southern Pacific, stated this afternoon that no unconsigned freight would be routed out of this city for the East via the Burlington for the present. Shippers will send no perishable articles of freight through by the Burlington route until the strike has been settled and traffic is again resumed. There remains three other routes open between Council Bluffs and Chicago, and these will be patronized by shippers until trains are again running.

W. D. Sanborn, local agent of the Burlington, has received instructions to continue the sale of tickets by way of his line to the East. Passengers holding tickets by the Burlington route will go through to Council Bluffs, and if by the time of their arrival the strike has not been settled, they will be given transportation over any other route they may choose.

AT QUINCY

QUINCY, Ill., Feb 27.—The Burlington strike has caused almost a complete suspension of business on that system in this locality. Quincy is the center of five divisions of road, and traffic on them has been nearly at a standstill to-day. No effort has been made to move freight trains. Two or three passenger trains have been sent out with engines manned by master mechanics, roadmasters or division superintendents. General Superintendent Crance, of the Hannibal & St. Joe, brought in the morning express from the west and took out the night express to-night.

KNIGHTS OF LABOR START FOR CHICAGO

READING, Feb 27.—A number of engineers who lost positions during the recent strike on the Reading railroad started for Chicago this morning to take the place of striking engineers on the Burlington railroad. There were 170 engineers and the same number of firemen, all Knights of Labor, who lost positions during the Reading strike.

MORE KNIGHTS GOING WEST

POTTSVILLE, Pa., Feb 27.—It is asserted here to-night that between 100 and 200 engineers and firemen will leave for the West to-night and to-morrow take service with the Burlington road. They are all Knights of Labor, but will go West as individuals and not under the order or the auspices of the Knights of Labor.

AT OTTUMWA

OTTUMWA, Iowa, Feb 27.—The C. B. & Q. passenger train, due at 9 A. M., arrived at 4:20 P. M., and left for Creston. It is doubtful if it will go farther than that point. Thirty four engines and 200 trainmen are laid up here.

AT LINCOLN

LINCOLN, Neb., Feb 27.—Business on Burlington & Missouri river road is almost entirely suspended. Freight trains are abandoned. A few passenger trains manned by non union men are being sent out, but are not running on schedule time.

CALIFORNIA.

PERSONAL AND GENERAL NOTES

SAN FRANCISCO, Feb 27.—It is many years since the first few weeks of the Lenten period betokened such a general regard for church ordinances as is now noticed. Heretofore for years past the closing days of the festive season had hardly become matters of history before the fashionable element of society began feeling around for some means of instilling pleasure into the few weeks which society, as well as religion, has set aside from time immemorial as a season of repose and self abnegation. This year, from present appearances, nothing of the sort seems in contemplation.

Miss Jessie Goslinsky will visit her sister Mrs. Meyer, of Portland, Oregon, during the present week.

Miss Maude Smith, formerly of Santa Rosa, now of Portland, is visiting friends at her former home.

Mrs. I. Bettman, of Portland, is visiting her sister Mrs. Leipsic of this city.

Miss Sophie Durkheimer, of Portland, Oregon, is stopping with friends in this city.

Edmund Clarence Stedman, the poet, has written to a friend in Oakland saying that he will visit the Pacific coast this summer and spend some time in Oakland and vicinity.

SUIT FOR THREE MILLION DOLLARS.

LOS ANGELES, Feb 27.—Suit has just been instituted by James D. Lick against John B. Felton, George H. Brownsby and twenty-six other defendants. Plaintiff is the heir apparent of the late James Lick, founder of the Mount Hamilton observatory. Complainant alleges that James Lick, Sr., bought once 18,000 acres of the best land in Santa Barbara county, and joined with Felton and others in a colony scheme. Plaintiff now sues for an accounting and such further relief as the superior court of Santa Barbara county may give. The case involves title to land, and if Lick is successful he will gain $3,000,000 in money.

DECREASE OF SMALLPOX

SAN FRANCISCO, Feb 27.—Up to a late hour this afternoon not a single case of smallpox had been verified. There was but one case reported at the health office yesterday. On Friday there was also but one case, and on Saturday none at all. Officials at the health office feel confident that the epidemic is rapidly on the wane, owing to the attention paid to vaccination by the community generally, and they also express confidence that very shortly it will disappear altogether, although single cases may crop out for a time yet. There are now 101 cases under treatment at the hospital.

SUIT FOR A LARGE SUM.

SAN FRANCISCO, Feb 27.—H. Kraft has commenced suit against Starr & Co. to recover $51,186 for wheat alleged to be contracted for delivery in Liverpool. The wheat arrived there but was not delivered to plaintiff, who further states that defendants made a return to him of a sale of wheat at the same time claiming £46,247 were lost. Plaintiff denies it was lost, and claims defendants appropriated the proceeds of the sale.

DEAD ON HIS WIFE'S GRAVE.

SANTA CRUZ, Feb 27.—At an early hour this morning the body of Henry Meyrick, Jr., aged 23 years, was found over his wife's grave in the I. O. O. F. cemetery, he having shot himself through the mouth. The wife of deceased died a few months ago after a short married life, and it is believed that constant brooding over her death drove Meyrick to commit the desperate act.

THE ELSINORE LINE.

SAN DIEGO, Feb 27.—Certain results of the meeting of the Elsinore road directors Saturday night came to light to-day. Two surveying parties started out from Elsinore to make surveys of the line near that town. The road will connect with the main line of the Southern Pacific at Pomona. This week a party of engineers will start out from this city to locate the line between here and Elsinore.

An Elegant Substitute

For oils, salts, pills and all kinds of bitter nauseous medicines, is the very agreeable liquid fruit remedy Syrup of Figs. Recommended by leading physicians. Manufactured only by the California Fig Syrup Company, San Francisco, Cal.
For sale in 50 cent and $1 bottles by all druggists. Snell, Heitshu & Woodard, wholesale agents.

THE CUMBRIAN'S CARGO DAMAGED

SAN FRANCISCO, Feb 27.—It is learned that the British bark Cumbrian arrived in Westport, Ireland, on February 25. She reports that while at sea fire broke out which extended to the hold and considerably damaged her cargo. The Cumbrian sailed from Astoria on October 21, 1887.

FITS.—All Fits stopped free by Dr. Kline's Great Nerve Restorer. No Fits after first day's use. Marvelous cures. Treatise and $2 trial bottle free to Fit cases. Send to Dr. Kline, 931 Arch st., Philadelphia, Pa.

Distress After Eating

Is [illegible] many disagreeable symptoms of dyspepsia. [illegible], heartburn, sour stomach, faintness [illegible] appetite are also caused by this very [illegible] growing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves the headache and cures the most [illegible] case of dyspepsia. Read the following:

"I have been troubled with dyspepsia. I had but little [illegible] what I did eat distressed me or did me little good. In an hour after eating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla [illegible]. It gave me an [illegible] relished and satisfied the craving I had previously experienced. It relieved me of [illegible] feeling I have felt so much [illegible] Hood's Sarsaparilla that I am happy [illegible]." G. A. PAGE, Watertown, Mass.

[illegible] Be sure to get only

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

WEAK, UNDEVELOPED PARTS
of the body enlarged and strengthened. Full particulars sent (sealed) free. ERIE MEDICAL CO., Buffalo, N. Y.

The Oregonian.

PORTLAND, TUESDAY, FEB. 28, 1888.

THE IMPORTANCE OF INDIANA.

There is good reason for the growing opinion that the real battle ground of the coming presidential campaign will be Indiana. It has all along been a matter of grave doubt whether any republican could carry New York against Cleveland, and the situation will not be changed if instead of Cleveland the democrats should nominate Hill. The strongest practical point in favor of Blaine has been his supposed popularity in New York. He, if anybody, it has been believed could take the foreign vote of the city (or a share of it) from the democratic candidate and since his candidacy must now be considered out of the question, there seems small prospect of republican success in the empire state.

If New York is to be dismissed from the list of probabilities, the necessity of carrying Indiana becomes paramount. Very many republicans are now looking at the problem in this way and the fact has brought into new prominence the Indiana men who have been suggested as candidates for the presidency. They are, as all the country knows, Judge W. Q. Gresham and ex-Senator Ben Harrison. Both are men of high character, both have fine war records, both have served Indiana and the nation in high public offices. From the current talk of the day we gather that as an active, aggressive party leader Gen. Harrison, aided by his friends, has the preference with the politicians, and the entire prestige of what may be called the machinery of the party in Indiana. Judge Gresham's position on the bench and the conservatism befitting a judicial position have necessarily kept him out of active party warfare for several years. This, however, will prove no detriment to his candidacy, as, while he has not made active friends of the minor politicians of the state, he has avoided the enmities inseparable from aggressive partisanship, and to-day all conservative republicans in Indiana believe he could poll a larger vote than Gen. Harrison.

Judge Gresham would, unquestionably, be the stronger man before the country. He has long been, in the thought of the party, a man proper for the presidency. Democrats, too, are willing to admit his fitness. Referring to a recent utterance by Judge Gresham respecting the folly of political ambition, the New York *Sun* remarked that he "was wise as he is wont to be in his view of every subject," adding: "He would be one of the strongest candidates the republican party could nominate for president, and if he should be elected, he would make an able, upright and most valuable chief magistrate."

The nomination of Judge Gresham would be a most fortunate thing for the party, independent of the considerations involved as to Indiana. He represents the best spirit of the party, and is entirely free from the practical objections which are sometimes attached to really first-class men.

JOHN MILTON.

These lines for the memorial window to Milton, at Westminster, presented by George W. Childs, of Philadelphia, were written by Whittier. They are very fine:

The new world honors him whose lofty plea
For England's freedom made her own more sure;
Whose song, immortal as its theme, shall be
Their common freehold while both worlds endure.

Some of Milton's nearest friends were closely connected with American history. Among them was Sir Henry Vane, the younger, to whom Milton addressed the sonnet that—more than Vane's own deeds—has immortalized him, beginning:

Vane, young in years, but in sage counsel old.

Vane was governor of the Massachusetts colony in 1636. Roger Williams, the founder of Rhode Island, is mentioned with enthusiastic affection by Milton in a letter to the Genoese envoy, and in a letter to Gov. Winthrop, Roger Williams incidentally remarks:

The secretary of the Council, Mr. Milton, for my Dutch read him read me many more languages.

Archdeacon Farrar, in his discourse upon the dedication of the window, which event was mentioned in our cable dispatches a week ago, said:

> There is something specially appropriate in the Milton window being the gift of an American, for the United States represent much that Milton most dearly loved—the commonwealth, which falling in England in America gloriously succeeded—the Puritanism, which crushed in England, inspired vigor and nobleness into our kin beyond the sea. "Paradise Lost" was the one English poem which the sons of the Pilgrim fathers loved, and which, until Longfellow inspired New England with a fresh sense of the sacredness of art and song, alone tempered the stern Hebrew ideal bequeathed to their descendants by those who sailed in the Mayflower.

NEW USES OF ELECTRICITY.

Experiments at Pittsburg for destruction of microbes in water by electricity are said to be very successful. The next step in the application of electricity to useful purposes will probably be the purification of the water supplied in all the towns and cities that have "water works." It is claimed that all the germs of disease carried in water can be thus destroyed.

The uses of electricity have already been extended beyond the wildest dreams of the early experimenters. It is not improbable that new triumphs, though perhaps not new surprises, are yet in store. Willamette water, after a heavy rain in the upper valley is about as full of solid matter, organic and inorganic, as any other in the world. After this water shall have been purified by electricity the next suggestion will be to try the virtues of electricity for the purification of Oregon politics. The first experiment should be made by turning a dynamo battery worked by all the power of the Santiam river upon the legislature.

Judge Sharpstein, of Walla Walla, a prominent figure in the territorial legislature and an opponent of woman suffrage, suggests that the suffrage question be made the paramount issue in the constitutional convention canvass this coming summer. This is fair, but the suffragists reject it with scorn. They are not willing to submit the issue fairly, since it is well-known they would be overwhelmingly defeated; and their effort will be to hold on by political sharp practice. It must be said for this plan that it is perfectly in keeping with the methods by which woman suffrage was forced on the territory against the wishes, clearly understood, of the people, both men and women.

In a paper read recently before the National Educational Association at Washington, President Eliot argued in favor of shortening the period from the beginning of the primary to the end of the high school course. He thought that a year could be saved to our youth without any loss in results of real value. He would save time where it ought to be saved, in shortening the programmes of work and in omitting the frequent reviews and examinations. President Eliot declared, however, that he would not recommend a shorter course unless better teachers can be provided, and the only way to obtain them is to increase the security of their positions during good behavior and insist on the higher quality of their work.

If ever there was a righteous verdict it was that rendered a few days ago in the Daly case. The assault was a fact not questioned, and it could have had but one purpose. And yet, there is to be an appeal to the supreme court. It is not likely to succeed.

It is not only in the West that the mail service is inefficient. Boston, Philadelphia, and a long list of smaller cities are complaining. Boston has sent a delegation to Washington to appeal to the new postmaster-general.

John R. Graham, who founded *Graham's Magazine* over forty years ago is still living in New York. His magazine was a very notable publication in its day.

You can't help liking them, they are so very small and their action is so perfect. Only one pill a dose. Carter's Little Liver Pills. Try them.

THE POLICE OUTRAGE.

PORTLAND, Feb. 28.

TO THE EDITOR OF THE OREGONIAN:

The details of the police outrage on the Warner boys as set forth by your correspondent "B." this morning must strike every thoughtful man with horror and indignation. I have lately been reading the *Century Magazine* articles on the political prisons of Russia, and felt thankful that we had nothing of that infamy in this country. But right here in Portland is discovered an equal to the worst specimen of a Russian dungeon. Is there no law? Is there no honor? Is there no respect for the rights of men at the hands of the political ring that domineers this community? If young Warner can be subjected to this great outrage on the rights of man, why not any other citizen? Suppose he had been a stranger without friends in the city, he would have languished in this Portland bastile until death by the typhoid or malignant erysipelas had claimed him for the grave. And who knows but that there may be, even now, other men imprisoned in some hole in the city jail awaiting the time when the chief of police shall have finished his never ending rounds of the "barrooms."

But what need citizens expect from a government of city officers carried on by a corrupt ring for the sole purpose of power and plunder? It is but a week or two since a circuit judge, placed on the bench by this ring, peremptorily dismissed a grand jury which was trying to investigate this chief of police, even when the jurymen informed "his honor" that they had indictments to bring in, but that the district attorney (another creature of the ring) was refusing to prepare them.

The ring has prepared to resist investigation by the people. The law organizing the board of police commissioners was skillfully prepared to perpetuate the ringsters in the control of the police force. Then a majority of the board was made up by the appointment of two of this unscrupulous gang. Then the head of the ring was made president of the board and chairman of the republican state central committee. With the power of the police force at his beck and call he packs the republican primaries, makes one of his creatures police judge, another sheriff, another district attorney, and places still another on the circuit court bench to abolish grand juries. Does any sane man suppose the chief of police would dare to lock up peaceable citizens, without a warrant and guilty of no offense, if he had not already tested his power to destroy an honest grand jury who was investigating his own evil life? And if one grand jury can be summarily dismissed against their protest, why not another and another? How long are the citizens of Multnomah county going to submit to these outrages on their rights as freemen?

The wrong done young Warner, the wrong done in dismissing the grand jury are wrongs to every citizen. No community can afford to stand unconcernedly by and see any one of its members wronged; and if it fails to rise up and speedily and effectually avenge such wrongs to popular rights, the forms of law and justice will soon disappear with the spirit already dead.

A little gush and sentiment over this episode, which has shown up in a new light the rottenness of public affairs in this city, will avail nothing if thoughtful and responsible citizens do not resolve to unite, to put an end to the corrupt ring which is the father and protection of this disgrace upon the city. Every man, from one end of the gang to the other, should be driven from power at the next election.

City, County and State Rights

—FOR—

Fulton's Book,

"Why Priests Should Wed."

Announcement to Booksellers, Book Agents and Others.

This is the most famous book of modern times, and is now to be offered, with exclusive territory, to a limited number of dealers. This book, "Why Priests Should Wed," by the Rev. Dr. Justin D. Fulton, is without doubt the greatest book that has been published in the nineteenth century. It is the book which has been many times suppressed on the charge of obscenity. It is the book which all the powers of the Roman Catholic Church have been brought to bear to crush, but without avail. Publishers refused to publish it; printers to print it; binders would not bind it;

40,000 DOLLARS

was offered for its suppression after it was found that [illegible] newspapers [illegible] Roman Catholic papers have tried to [illegible] the [illegible] shown [illegible] At last the book is done, printed and bound under the auspices of a syndicate of wealthy and influential men, who determined that it should be placed before the people on so broad a basis that every man and woman should have an opportunity to know of

THE HORRIBLE FACTS

it contains. To this end they decided to send the illustrious author of the book through the world to lecture in the great halls of the larger cities of America and Europe. It was decided not to sell the book but to give it away to the buyer of tickets to his lecture. To accomplish this, the syndicate purchased of the publishers

300,000 COPIES OF THE BOOK!

[illegible] of which were finished before a copy had been shown to the public, and on the 23d of January, 1888, Dr. Fulton's Crusade opened in Mechanic's Hall, Boston before 10,000 people; on the second night, 7000 people were present; 27,000 copies of the book were disposed of in the first week. The syndicate then met with obstacles that have compelled them to change their plans.

The demand for the books were so great in every city, as soon as the crusade had left it, and also all over the country, as soon as it became known that it was possible to get the books, that shrewd speculators would buy thousands of the tickets in order to sell the books at $2 00 and upwards per copy. To stop this speculation the Fulton Syndicate have decided to place the book in every city, county and state in America at once on the following basis: The party or parties, be they booksellers, agents or private individuals, who will agree in the next fifteen days to take the greatest number of books for a given locality will be given

EXCLUSIVE RIGHTS

to that locality.

Remember the book is the most marvelous book ever published. It tells of the terrible doings of priests and nuns; it outlines the abuses of the Roman Catholic; it pictures the Roman Catholic grasp on this land; and it shows the path of duty for the future. It has 351 pages, colored borders, marble edges, remarkable binding in illuminated cloth, and is filled with [illegible] per copy.

[illegible]

NO BONUS DEMANDED,

[illegible] Only one sample copy will be sent to one person. Address

PAINTERS' UNION SUSTAINED

By the Federated Trades Assembly—Resolutions Adopted.

To the Public: The following preamble and resolutions were adopted last evening at the regular meeting of the Federated Trades Assembly:

Whereas, Portland Union No. 41, Brotherhood of Painters and Decorators of America, has, after careful consideration, and having given sixty days' notice to their employers, resolved to adopt the nine hour system of work, the same to go into effect March 1, '88, believing that with intensity of diligence and [illegible] and,

Whereas, The painters are exposed to the poisonous [illegible]

Whereas, The [illegible]

Whereas, The painters and decorators form one of the unions composing the federated Trades Assembly of Portland, Oregon; therefore,

Resolved, That the Federated Trades Assembly does hereby endorse the stand taken by the Painters and Decorators' Union, and that we stand ready, as an organization, to assist them and pledge them our support. Believing that it is not to the interest of united labor that any union should be disintegrated or its strength impaired, we therefore invite all trades and labor unions of the city of Portland to join with us in recognizing the claim which every struggling toiler has to their support and sympathy. By order of the Trades Assembly. T. P. MAHAN, President.

J. J. REUTEMAN, Secretary.

AUCTION SALES TO DAY

The furniture of residence No 189 Main st, at one o'clock. Regular sale at 10 o clock by Gilman & Co

LOCAL AND GENERAL.

TROUT FISHING PROSPECTS.—Mr Jack Matthews, who has just returned from a hunting and fishing trip down around Milton creek tells of some excellent sport in the fishing line and of some really marvelous exploits of a couple of boys whom he knows. He went down with his famous "yarmint" dog with the hope of getting a shot at a cougar he had been told was hanging around the farm houses there, but after a couple of days hunt he gave it up and began fishing. He had salmon roe for [illegible] twelve baits and caught thirteen fish and [illegible] three "big ones"—pretty fair work considering his amount of bait. The two young boys, who were from this city, caught eighty nine trout the same day. Mr Matthews says that the steel head salmon are running up the creek and this fact accounts for the presence of the cougars, wild cats, lynx and other wild animals which have been seen and some of them killed near here. To test this one of the farmers recently took a lot of salmon and hung them around on the bushes over night and in the morning none were left but a lot of tracks showed very plainly that wild beasts had been around. A member of THE OREGONIAN'S staff returned from Dilley yesterday and reported having had a fine day's sport at the mill dam on the Tualatin. At one of the fish markets yesterday were displayed a lot of trout, fully two-thirds of which were salmon and brook trout. The law, permitting salmon trout to be caught and prohibiting the catching of brook trout, seems to be one of those laws which embody a distinction without a difference, for it is well known that there are a lot of mean loafers who every spring go out to all the easily reached streams, fishing them close and hard and calling all their catch salmon trout, thus evading the law. This leaves the true sportsman in rather hard lines, for by the "First" of April the fish are all gone.

SUIT TO FORECLOSE.—In the state circuit court yesterday Ladd & Tilton sued Margaret M Burton and forty-six others for the foreclosure of a mortgage on lot 2, block 24 Couch addition and the improvements thereon. They also pray that the defendants and all persons claiming to be mortgagees, judgment lien holders, purchasers, heirs, legatees or creditors of the estate of J J Burton deceased be forever barred and foreclosed of all equity of redemption or other interest in the mortgaged property, save only the statutory right to redeem; that the property be sold and the proceeds applied to the payment of the costs and disbursements of the suit and sale and to the payment of $8000 with interest at 10 per cent a year from August 7 1885, and 4 per cent interest on the principal and interest provided in the mortgage as indemnity for attorney's fees in case of foreclosure. Plaintiffs allege that May 8 1878 they loaned J J Burton deceased and Margaret M Burton his wife $8000 taking a promissory note for the amount payable in six years with interest at 10 per cent. To secure the payment of the same the Burtons gave a mortgage on the property. Plaintiffs further allege that no part of the principal or interest has been paid except the interest to August 7 1885

READY SALE FOR ORES.—The value of the Coeur d'Alene mines is now an established fact and no longer a matter of perhaps. Three months ago there were no buyers of ores in that district, now there are plenty of them and mine owners are constantly receiving letters and dispatches from parties anxious to contract for ores and concentrates. The mines are becoming well known. One party recently wished to contract with Mr. Van B. DeLashmutt for the entire output of the Sierra Nevada mine for three years, but he declined to enter into such an arrangement. There has been a large amount of ores and concentrates sold at the mines and there is an immense amount now sacked up ready for shipment. Mr D [illegible] has sold 1200 tons, 300 from the Gr[illegible] and 400 each from the Stemwinder and Sl[illegible], for which cash is paid on the spot. As the ore is sacked a handful from each sack is thrown into a tub, and from this assays are made by both seller and buyer so there is no "pig in a poke" business connected with the transaction

RUNAWAY TEAM.—At 12 o'clock yesterday quite a little commotion was raised on First street by the running away of a little bit of a wiry pony attached to a huge black covered van employed by A. B. Bloomer of East Portland to carry bottles around to his customers. When opposite the First National bank, superintendent of the fire alarm department, A J Coffee Jr rushed out into the street waving an umbrella in front of the [illegible] thoroughly alarmed cayuse which veered [illegible] would have gone into the cigar store [illegible] but for the friendly barricade of a [illegible] piled up on the sidewalk. The animal was captured and held until the panting driver who had been running all the way from Yamhill street came up, who after thanking the bystanders mounted the box, gathered up the lines in a careful manner and with the remark that "he always was a [illegible]" referring to the aforesaid meek looking cayuse, he drove off

PERTINENT SUGGESTION.—Mr Van B De Lashmutt made a suggestion yesterday which is worthy of consideration if not prompt action. He proposes that Portland should send an agent to St Paul, Minn., whose duty it should be to supply all westbound immigrants with literature descriptive of Portland and talk Portland to them first last and all the time. The Northern Pacific office at St. Paul do this for Tacoma and make the immigrants think, for the time being, that Tacoma is the only point in the Northwest. Mr DeLashmutt considers St Paul the key to the whole position and maintains that Portland should be properly represented there. He argues that all immigrants who pass Omaha west-bound will come to Portland, also those leaving San Francisco except the comparatively small number who took the steamer for Puget sound. He believes that steps should be taken immediately in order to catch the spring immigration.

WARMING THE CONVENT.—A few days ago an OREGONIAN representative had occasion to be at the depot of the narrow gauge road where an outfit of furnace fixtures was being transferred to the cars for shipment to Mt Angel. Upon inquiry it was found that Mr H P C [illegible] and a number of his men were on their way to the Sisters convent, a four story brick structure on the narrow gauge at Mt. Angel. The work of [illegible] up three of the largest Richards [illegible] furnaces is in progress, and Mr C[illegible] will [illegible] this week to hasten the completion of the work. The building is the only brick [illegible] on the line of the narrow gauge and adds [illegible] to the appearance of the place. The [illegible] will erect a large brick building at Mt Angel. They now occupy a large frame building at that place

CRIMINAL PROCEEDINGS.—John Lane, indicted for stealing a [illegible] coat from B Gilden, was arraigned in circuit court No. 2 yesterday and given until to-day to plead. Walter Young colored and Mary Anderson, white, pleaded not guilty to [illegible] association and the trial of the former was set for March 7. Mon Hong and Lou Ynng, Chinese, indicted by the grand jury Saturday for selling a lottery ticket to Ah Lung December 28, were arrested, and gave bonds for their appearance. Justice Tuttle's time was occupied in the trials of Charles F Binder and R. D. Montgomery for assault and battery on each other. The cases were taken under advisement until to-morrow

NEW POSTAL CONVENTION.—Postmaster Roby has received copies of a new postal convention lately agreed upon between the United States and the Dominion of Canada, which abrogates the special convention between these countries, signed at Washington, February, 1885. By this agreement articles of every kind or nature which are admitted to the domestic mails of either country shall be admitted to the mails exchanged between them, subject however to such regulations as the postal administration of the country of destination may deem necessary to protect its customs revenues. Hereafter any article of merchandize which is mailable in our domestic mails will be mailable to Canada at the same postage rates and under the same conditions as would apply if for delivery in the United States

INCREASED POSTAL FACILITIES NEEDED.—The postoffice department at Washington has written to Postmaster Roby for statistics in regard to the increase of postal business here, in order that an idea can be formed of the necessity for increased postal facilities. Mr Roby has forwarded a statement showing that postal business here in the past eight years has increased 450 per cent and the money order business in twelve years has increased over 2000 per cent. In regard to accommodations Mr Roby adds "We have only one third the room we need for mailing purposes. The needs of the postoffice present and prospective require the whole of the first floor of the building but its construction is faulty and if assigned to permanent use of the postoffice would need remodeling.

FEDERATED TRADES.—A meeting of the Federated Trades Assembly was held last night at Danish Aid Society hall, President T F Mahan in the chair, J J Reuteman, secretary. A resolution was adopted supporting Portland Union No 41 Brotherhood of Painters and Decorators of America, in adopting the nine-hour system, and appeal to all trade and labor organizations in the city to recognize their claim to support and sympathy. A resolution was adopted to celebrate Labor Day—the last Saturday in May, which is a legal holiday—by a procession of all the trade and labor unions of the city, orations and suitable exercises. All unions not identified with the assembly will be invited to participate in the celebration. A full delegation was present and progress was reported in organizing labor

WANTS A NEW TRIAL.—The motion for a new trial in the case of James H Fisk vs. D V B Henarie et al was argued and submitted in the United States circuit court yesterday. On the argument of the motion counsel for Fisk admitted that there was no error in the trial, but contended that the court erred prior to the trial in refusing to remand the case to the state court because the affidavit on which it was removed to the United States court was not sufficient. Counsel on the other side contended that this was no part of the trial and a new trial could not be granted on that account. It he wants a new trial to correct any error in that ruling he must go to the supreme court.

THE DRY DOCK.—Manager W. H Holcomb of the Northern Pacific Terminal Company, Port Captain J W Troup, and other railway officials yesterday visited the Albina dry dock on a tour of inspection. It is probable that the dock will be put in condition to receive vessels this spring. The machinery was started up Saturday and although it had been idle nearly five years everything worked all right. Especially was this noticeable in the case of a pump that was at the bottom of the dock, eighteen feet under water. When the steam was turned on this pump worked as well as if it had been put in place yesterday

NEW TIME TABLE.—A new time table will go into effect on the narrow gauge lines Thursday. The morning train will leave here at 7 30 instead of 8 going as far as Dallas which will be reached at 12 45 P M., returning leave Dallas at 1 P M and arrive in Portland at 6. Upon the arrival of the train at Dallas another will leave for Airlie reaching there at 2 27 P M. This train will leave Airlie at 11.30 A M. in order to connect at Dallas with the one bound for Portland. The afternoon train will leave Portland at 1.30, arriving at Sheridan 6 30, leave Sheridan 7 45 A M., arrive at Portland about 12 15 P M

OUR FIRST SUBURBAN TRAINS.—The first suburban trains that Portland has ever had were run on the Portland & Willamette Valley railroad Sunday to Fulton, River View cemetery, Elk Rock, the White house and Oswego. The five trains that departed from the city were crowded and on one occasion sixty one passengers had to wait until the next train. In all about 600 people spent the day basking in the sunshine and strolling over the green hills south of town. It is the intention of the company to continue these Sunday trains which will be run more frequently when another locomotive now on the way arrives

DO NOT PAY ENOUGH.—The water committee has put meters on several of the passenger elevators in the large buildings and has found that the monthly rate of $15 to $30 levied on them is not sufficient to pay for pumping the water some of them consume. The rates will probably be readjusted soon or fixed according to the quantity used as shown by the meters. Rates by meter are: From 1000 to 25 000 gallons per month 30 cents per thousand gallons; from 25 000 to 50 000 gallons, [illegible] cents; from 50 000 to 100 000 gallons, 20 cents; over 100 000 gallons, 1[illegible] cents.

CRUSHED BY A LOG.—A fatal accident befell one of the drivers at work on I. M. Elsworth's drive of timber in the Palouse river a few days since. The workmen were rolling the logs from the bank into the river when one of the men, Moses Ebbert, was struck and crushed to death by a rolling log. Three others were severely bruised, their names being Paugburn, Geshte[illegible] and McNeilly. Ebbert was a young man 21 years of age. These are the first serious accidents to happen on the Palouse although the risks and danger of the work are great

CHINESE WHO MUST GO.—Probably some action will be taken within a short time to rid the county of the sixteen lepers who occupy an inclosure on the poor farm and who periodically visit the city during festivals and levy tributes on their countrymen. Yesterday County Judge Catlin had a consultation with Receiver Koehler of the Oregon & California railroad for the purpose of deciding on some means for the transportation of the lepers to San Francisco where they will be put aboard a vessel bound for China. No decision was reached in the matter

CABLE ROAD PROSPECTS.—The stockholders of the Portland Cable Railway Company held a meeting in the parlor of the Ainsworth National bank yesterday afternoon, and heard the statement of the committee on subscriptions, which showed considerable progress. Preston C Smith, Samuel Heitshu and R. H. Thompson were appointed a committee to proceed to San Francisco on business for the company. The meeting adjourned to March 7 when it is expected the subscription committee will report.

COURT NOTES.—Robert Smith commenced suit against Frank Lavine for $3 5 in the state circuit court yesterday. He alleges that he has spent that amount for the benefit of the defendant who has neglected to settle up. A motion to strike out parts of the plaintiff's reply was filed in the suit of the Portland & Willamette Valley railroad vs Pembra Kelly. In the suit of W J Hawkins et al vs the Northern Pacific railroad the defendants were by stipulation granted until March 12 to answer or file a reply.

NEW WATER RATES.—Beginning March 1 the rate prescribed in the printed regulations of the City Water Works for families of six persons or less and manufactories and shops with 10 [illegible] extra for each additional person over six will apply to all stores, warehouses and other places of business. The family rate where one faucet is used is 10 cents for manufactories and shops not otherwise specified in addition to closets $1. The [illegible] prescribed six persons include the proprietors of the store

SAD FATE.—The death of Mrs Peckham, nee Miss Lelia White, formerly of this city, at Winfield Kan, recently which was noted in this paper, was the result of a shock caused by the tragic death of her 5 year old daughter Bessie whose clothing caught fire and burned completely off before assistance arrived. The young mother never recovered from the shock and died of a broken heart. She was the youngest daughter of Mr and Mrs N White of The Dalles

SUES FOR DAMAGES.—Mrs May Davis says the Eugene Guard has brought suit against Mr S I Sadden for slander in the state circuit court for Lane county at the April term, laying the damages at $10 000. The attorneys for plaintiff are Condon & Fo[illegible] of Eugene City and H Y Thompson of Portland. The defendant has not yet filed his answer to the complaint but will perhaps be ably represented

CHILDREN'S CONCERT.—To morrow (Wednesday) evening an entertainment will be given at Taylor street M E church consisting of recitations and instrumental and vocal music. A chorus of fifty voices has been trained for this occasion. The admission is 25 cents

MEAN TRICK.—One of the numerous "catch nickel" scales which ornament the cigar stores, hotels and saloons around town is out of gear just now. The expert who examines the same periodically to gather in the nickels said that somebody must have tied a string to a nickel which caused the trouble. It is a very mean man who will try to swindle a poor deaf and dumb and blind machine. He will be putting a dime with a string to it on the contribution plate next

GOOD IDEA.—There is some talk among several of the more prominent young men around town of organizing themselves into an organization for advertising the city and advancing its interests in time to reap real advantage from the coming movement among immigrants towards this section of the country which is confidently expected this spring. A call will be made pursuant to this idea as soon as it is ascertained how much co operation can be counted on

KILLED BY A HORSE.—A few days ago a very shocking accident occurred at the farm of James Cook near North Yakima which resulted in the death of a little girl, Lillie Myrtle Beck, aged about 10 years. The grandfather of the girl was driving some horses in a corral and the child it is supposed ran up behind one of the animals and struck it on the heels with a stick, receiving a kick on the head which fractured the skull killing her instantly

CONCENTRATOR FOR SALMON CITY.—The Salmon River Milling and Mining Company has awarded a contract to Parke & Lacy of this city to furnish the machinery for a fifty ton concentrator to be erected at Salmon City W T and which is expected to be ready for work by May 15. Ex-Lieut Gov O R Laughton of Nevada, manager of the company, left yesterday for Salt Lake to purchase some additional machinery

SOCIAL TO NIGHT.—The ladies of the Unitarian church will give a sociable in the church parlors this (Tuesday) evening. Admission 10 cents. Refreshments extra.

FINE CRAYON.—In Sanborn Vail & Co's window is to be seen a beautiful free-hand crayon of Mr H B Nicoll. It is one of E W Moore's latest and best

LAST SOCIAL HOP.—The Grand Army Hall Association give their last social hop this (Tuesday) evening at their hall, corner of First and Taylor streets.

FOR SHOALWATER BAY.—The steamer Dolphin will sail for points on the bay March 1 from Astoria. Connections by the O R & N boats

GRATEFUL—COMFORTING

EPPS'S COCOA.

BREAKFAST

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.—Civil Service Gazette. Made simply with boiling water or milk. ADDITIONAL TELEGRAPH.

SENATE.

WASHINGTON, Feb. 27.—The senate resumed consideration of the bill to incorporate the Maritime Canal Company of Nicaragua. Several amendments reported by the committee on foreign relations were agreed to.

Edmunds offered an amendment, declaring that nothing in the act should be deemed or construed to restrict or impair in any way any right of the United States under any treaty in force with the republic of Nicaragua; agreed to.

Vest offered an amendment declaring that nothing in the act should be held or construed to involve, in any manner the United States in any pecuniary obligation except as to the payment of tolls; rejected.

Vest offered another amendment, providing that no part of the capital stock paid in shall be at any time withdrawn or returned to the stockholders, nor be in any manner diverted from the proper uses of the corporation, and said that the same was placed in the Tehuantepec bill of last congress, also in the Nicaragua bill, on motion of the senator from Vermont.

Teller opposed the amendment.

Hoar suggested to Vest to modify his amendment by allowing stock to be returned to the stockholders for the purpose of winding up the corporation, and Vest modified it accordingly.

Vance called the attention of the republican senators to the fact that the bill omitted to require all material used in the work to be of American manufacture, and he prophesied that these fellows would buy their iron and steel and other materials wherever they could get them cheapest and best. Was not that, he asked, an evasion of the duty which the senators owed to Pennsylvania steel and iron manufacturers? Was not the end of all things nigh when congress would charter a corporation to act in foreign parts with permission to buy iron and steel and other materials from the British lion? He made these suggestions in the character of an *amicus curiæ*, and said if the republican senators did not act on them, and what he prophesied would happen, "their blood be on their own heads. [Laughter.]

Teller replied if the managers of the enterprise were untrammeled, and would buy their picks and shovels and barrows where they could find them best and cheapest, they would buy them in the United States. The senator from North Carolina might not worry himself on that point.

Vest's amendment was rejected.

Vance offered an amendment requiring all laborers employed in the work to be either native or naturalized citizens; rejected; nays 35, yeas 10.

The bill was then reported back from the committee of the whole, and the amendments agreed upon in committee were concurred in. The bill then passed—yeas 38, nays 15, as follows:

Yeas—Aldrich, Allison, Blair, Brown, Chase, Chandler, Colquitt, Cullom, Daniel, Davis, Dolph, Edmunds, Evarts, Farwell, Frye, Gorman, Gray, Hale, Hearst, Hoar, Ingalls, Manderson, Mitchell, Morgan, Paddock, Payne, Platt, Plumb, Pugh, Sabin, Saulsbury, Sawyer, Sherman, Spooner, Stewart, Teller, Turpie and Wilson of Iowa—33.

Nays—Bate, Berry, Blackburn, Coke, Faulkner, George, Gibson, Hampton, Kenna, Pasco, Reagan, Riddleberger, Vest, Waltham, Wilson of Maryland—15.

THE DEPENDENT PENSION BILL.

The senate then took up the bill granting pensions to ex-soldiers and sailors who are incapacitated for the performance of manual labor and providing for pensions to dependent relatives of deceased soldiers and sailors.

The second section was amended by adding the words "and who are without other adequate ways of self-support."

Plumb moved to strike out the word "totally" before the word "incapacitated," and gave notice that if his motion prevailed he would move to amend further by providing that the pension should be from $40 to $120 only, according to degree of incapacity. After discussion the amendment was agreed to—yeas 27, nays 22, and the word "totally" was struck out.

Plumb also moved to strike out the words "in the degree herein specified;" agreed to—yeas 26, nays 22.

Plumb also moved to insert the following: "All pensions granted to widows under this or any other general law shall take effect from the date of the death of the husbands of such widows respectively, but not dating back of the passage of this act;" agreed to without division.

Call moved an amendment to make the bill apply to those who served in the Florida war, but accepted a modification of it moved by Morgan by making it apply to those who served in the war with Mexico (for thirty days) and in wars with Indian tribes.

Without disposing of this amendment the bill was laid aside, and Blair offered an amendment (in order to have it printed) providing for a service pension at the rate of $10 per month. Adjourned.

HOUSE.

WASHINGTON, Feb. 27.—Matson of Indiana, from the committee on invalid pensions, reported adversely a resolution reciting the "one hundred days circular" issued by Gen. Black, commissioner of pensions, and directing the committee to inquire whether such circular was issued, and, if so, whether any pension claims had been rejected through non-compliance with the requests contained therein. Matson stated that such circular had been issued, and its effect had been salutary. Many claims had been vigorously prosecuted and allowed, which otherwise would have remained unacted upon on account of want of evidence.

Mason, of Illinois regarded the issuing of the circular as a usurpation on the part of the commissioner of pensions. The circular, in so many words, said to claimants that unless their claims were perfected within one hundred days they would be dismissed. The commissioner had actually taken the place of congress, and had enacted a statute of limitations, and in one department of his office between 700 and 800 cases had been dismissed, because claimants failed to perfect their evidence within ten days. It was true, a case could be reopened at any time on the filing of additional proof, but that fact should have been stated by the commissioner in his circular letter.

Matson defended the action of the commissioner and the resolution was tabled—yeas 119, nays 99.

The following bills and resolutions were introduced and referred:

By Morrow, of California—Calling on the president for information as to what steps have been taken to prevent continued immigration of Chinese laborers into the United States, notwithstanding the provisions of the treaty of November 17, 1880, and laws passed in pursuance thereof. Also, to establish a quarantine station at San Francisco.

Holman of Indiana—Directing the committee on private land claims to inquire into the matter of the Maxwell land grant, with a view to the relief of homestead and pre-emption settlers.

By Crain of Texas—A joint resolution extending the term of office of the President until the 30th of April, 1889, and changing the date of meeting of congress.

Voorhees of Washington territory—For the appointment of a commission to select a place for a naval station on the Pacific coast.

Carey of Wyoming—For the admission of the state of Wyoming.

Bayne of Pennsylvania—A resolution reciting the allegation that the commissioner of Indian affairs has forbidden missionaries from teaching the sacred scriptures in the native language of Indians in any school supported in part by the United States, and calling on the secretary of the interior for information as to the authority of law under which this order was issued.

Mason of Illinois—Providing that hereafter letters issued by the commissioner of pensions and fixing the time in which pension proofs must be furnished, shall contain a statement that no statute of limitations is applicable to pension claims.

After some discussion of the bill reported by the committee on District of Columbia, the house adjourned without taking action.

CATFISH.

A Species That the People of Oregon Will Do Well to Avoid.

WASHINGTON, Feb. 27.—Senator Mitchell has received the following letter from the fish commissioner:

Dear Sir—Although we have no facilities at present for complying with the request transmitted with your letter of February 20 for catfish for stocking the Tualatin river in Oregon, it is a matter that the commission proposes to take up with a view to arranging for distribution of this species to suitable waters. I am disposed to be very conservative about the introduction of any of the species of catfish into waters which themselves contain or are tributaries to streams that contain [illegible] fish. The catfish is a great spawn eater, and if placed in any of the tributaries of the Willamette will doubtless in time distribute itself to all [illegible] is a serious question to consider whether it is advisable to introduce the species in that river basin. Very truly yours,

M. McDONALD, Commissioner.

WASHINGTON NEWS ITEMS.

A SENSIBLE PROVISION.

WASHINGTON, Feb. 27.—Senator Stewart introduced a bill in the senate to-day, providing that U. S. circuit judges and U. S. district judges who are called from their own circuits and districts respectively to other circuits and other districts be allowed $10 per day for expenses. This bill is introduced to prevent the delays which the auditors of the treasury department enforced in the adjustment of the accounts of the federal judges of the United States. Judge Deady, of Oregon, has his accounts hung up in the department because he has not rendered an itemized account of the expenses incurred while holding court in San Francisco. Judge Sabin's accounts have experienced a similar fate. There is a law which provides that this rule shall apply to all parts of the country.

FUNERAL OF W. W. CORCORAN.

WASHINGTON, Feb. 27.—The funeral of W. W. Corcoran took place this afternoon at his late residence. In accordance with a wish of deceased the ceremonies were simple and devoid of ostentation. Among the floral tributes was a large pillow sent by Mrs. Cleveland. Mrs. Cleveland was present during the services, and her carriage was in the long cortege that followed the remains to the grave. She was escorted by Secretary Endicott, and stood during the services in the house very near the head of the casket. Chief Justice Waite, Senators Barbour and [illegible] every other persons of note were in the parlors of the mansion during the service.

RAINFALL OF THE PACIFIC COAST.

WASHINGTON, Feb. 27.—Signal Service Officer Greely sent to the senate to-day, through the secretary of war, his report on the rainfall of the region of country west of the Rocky mountains. The report is very voluminous, and is accompanied by thirty charts. The whole thing has been ordered to be printed. Gen. Greely says that the condition of the western country will force upon congress the question of irrigation. [illegible] that the rainfall in the great interior [illegible] drained by the Missouri river is increasing, and the actual average of rainfall for Idaho, Nevada, Utah, New Mexico and Arizona is also increasing.

THE GOVERNMENT PRINTING OFFICE.

WASHINGTON, Feb. 27.—Mr. Benedict, the public printer, appeared again this evening before the special committee. He gave in detail a sketch of the reforms which he asserted he had accomplished in the saving of money and securing better service. He stated that he had observed the spirit of the civil service law by continuing in office the more experienced and most reliable employes, who to-day constituted two-thirds of the whole working force, and by reinstating in the office experienced and competent employes who had been discharged prior to his incumbency.

When he first went into the office he said there was no record showing the number of soldiers and sailors employed and entitled to protection under the statute. He presented a statement showing that there were on the rolls to-day 488 persons claiming such protection. Seventy persons had been discharged who were entitled to exemption, and 108 appointments of honorably discharged soldiers or their widows or children had been made by him.

THE SPOONER TELEGRAPH BILL.

WASHINGTON, Feb. 27.—Senator Reagan this morning reported back the Spooner bill to regulate commerce carried on by telegraph, from the subcommittee to the full committee on postoffices and post-roads, and the latter entered upon its formal consideration by sections. Another meeting will be held to-morrow, at which it is expected the work will be completed and the bill prepared for report to the senate. This is the bill placing control of telegraphs in the hands of the interstate commerce commission.

AN AMENDMENT BY TELLER.

WASHINGTON, Feb. 27.—Senator Teller to-day introduced the following amendment to the bill reported by Senator Plumb to forfeit certain railroad land grants: "That in all cases where any of the lands forfeited by this act have been sold by the United States for cash, or entered by homestead or pre-emption settlers, or selected by any state as part of the grant to such state in aid of any public work which has been fully completed, the right of all persons so holding lands shall be confirmed."

THE MILLS TARIFF BILL COMPLETED.

WASHINGTON, Feb. 27.—The Mills tariff bill has been completed practically and will be laid before the full committee on ways and means to-morrow. It is expected that the bill will be reported to the house after the meeting to-morrow morning, and ordered printed and recommitted to the committee. The final report to the house will likely be made within a week or ten days thereafter. It is expected that the Randall and Republican bills will appear shortly after.

THE BILL TO CHANGE THE LAND LAWS.

WASHINGTON, Feb. 27.—The senate committee on public lands has substantially, though not formally agreed upon a public land bill to repeal the timber culture and pre-emption laws, amend the homestead law, etc. It is similar in general features to the senate bill of last session. A meeting of the committee will be held next Saturday, at which it is expected formal action will be taken.

TERRY WILL ASK TO BE RETIRED.

NEW YORK, Feb. 27.—A Washington special says that it is generally understood that Gen. Terry will ask to be retired for disability at the end of his four months' leave of absence, and that the old rivalry for the vacant major-generalship will be renewed between Gens. Crook and Miles. The relations of the latter with Secretary Endicott are reported to be the reverse of friendly.

TO SUCCEED JUDGE TURNER.

WASHINGTON, Feb. 27.—The president sent the nominations of Moses J. Liddell of Louisiana, to be justice of the supreme court of the territory of Montana, and Lucius B. Nash, to be associate justice of the supreme court of the territory of Washington, to the senate to-day.

THE OIL TRUST.

Rockafeller Examined by the Senate Investigating Committee.

NEW YORK, Feb. 27.—J. N. Rockafeller, of the Standard Oil Company, was examined this morning by the senate trust investigating committee. He said the company of which he is president has a capital of $3,500,000. He is a member of the Standard oil trust, which is not incorporated, but based on a written agreement. He produced the agreement, asking that its contents be kept from the press, as it contained private matters. From five to fifty companies had entered the trust, but he would not say definitely how many. The capital is $90,000,000. The oil product of the company is about 27,000,000 barrels annually, and three-fourths of this controlled by the trust. Certificates are worth $165, par value $100. In 1887 the shareholders received 20 per cent. more stock, and in addition a dividend of 10 per cent. Dividends have been drawn every three months, the average being 7½ per cent. annually. Twenty million dollars has been added to the seventy millions with which the trust started. This has been given as stock dividends in addition to the regular dividends. A number of small refineries have been closed and new machinery put in. The number of refineries has been increasing constantly. The trust is doing nothing to prevent production. The trust only own the stock of small wells whose product consists of about 2000 barrels a day, while the total production is 100,000 barrels a day.

The trust owns stock of pipe lines, one of which brings oil to the seaboard through tubes. About $30,000,000 of the trust's capital represents the plant of pipe lines. A majority of the stock is held by the present trustees.

A synopsis of the trust agreement, which was executed January 20, 1882, shows a division of those entering into the agreement into three classes, and the names of those in each class are given.

The purposes of the trust are to mine for the product, manufacture, refine and deal in petroleum and all its products, and all material used in such business and to transact other business connected therewith. The parties agree to form a corporation under the laws of Ohio, New York, Pennsylvania and New Jersey, such corporation to be known as a "Standard Oil Company" of each state. The trustees are given power to purchase the bonds and stocks of other companies. Each trustee is entitled to a salary not exceeding $25,000 a year, except the president, who may be voted $30,000.

Rockafeller said the trust had but little to do with producing oil. Its business was almost entirely in refining and transporting. The company owned oil cars and is interested in natural gas, and controls the stocks of several such companies. It employs 25,000 men.

ENSENADA GRANT.

A Statement by the Superintendent of the International Company.

NEW YORK, Feb. 27.—A dispatch from San Diego says that President Diaz has revoked the title of lands now being sold by the International Company in Mexico. Maj. Sissem, superintendent of the company, in regard to the matter, said: "Mrs. Burton is a monomaniac on the subject of this property. Reeves, who she claims was her grand father, deeded the property to his son-in-law, Gastello, who in turn sold it to Dom Pedro Gastelum, from whom our company purchased it. When Mrs. Burton first claimed the land the government fully investigated the matter, and found that her grandfather died seven years before she was born. Then she said the land was left to another member of the family, who left it to her at his death. That was also investigated and found to be untrue. The property belongs to our company and we have a clean title for it as far back as 1804, when the King of Spain gave it to Reeves. The case is not in court and never has been. We have always been ready to defend our title to the land, but the woman would not go into court, as she preferred to wage war against us through the newspapers."

A SHOCKING CRIME.

A Chicago Girl Criminally Assaulted and Murdered by a Mulatto.

CHICAGO, Feb. 27.—Maggie Guggan, fifteen years of age, was assaulted and murdered and her body concealed in a closet in Green Bros.' boot-heel factory, this city, early this morning. Seph Davis, a mulatto, 22 years old, is supposed to be the murderer. He left the store before the discovery of the body, and has not yet been found. The girl worked in the factory, and it is supposed she reached there about half past six. Davis at that time was there alone, and it is supposed he criminally assaulted and murdered her with a hatchet, her skull being beaten to pieces. The clothing and body gave evidence of the girl having made a desperate struggle.

A GREAT ENTERPRISE.

The Largest Smelter in the World to be Built in Montana.

ST. PAUL, Feb. 27.—The Montana Smelting Company has closed a contract with the Great Falls Water Power Company of Montana, and will erect the largest smelting plant in the world at Great Falls, on the Missouri. The company has a capital stock of $1,500,000, which will be increased as required, and their plans call for the expenditure of nearly $2,000,000 for the erection of furnaces and other structures.

CABLE NOTES.

BISMARCK FIRST, THEN THE EMPEROR.

BERLIN, Feb. 27.—Frequent interviews occur between Prince Bismarck and Emperor William, due to the fact that all news from San Remo concerning the crown prince is transmitted to the emperor through Bismarck.

BERLIN, Feb. 27.—Dr. Kussmaul has sent Bismarck a special report on the crown prince's condition, which is believed to be unfavorable. Special prayer services in behalf of the prince were held at the imperial palace yesterday.

BERLIN, Feb. 27.—Dr. Kaussmaul shares in the opinion that there are cancerous cells in the matter expectorated by the crown prince. Dr. Mackenzie has declined to enter into anatomical details.

Teeth that loosen through ill health
May be rendered more secure,
Flaccid gums and fetid breath
Soon grow healthy, sweet and pure,
SOZODONT brings this about,
As the world long since found out.

THE EAST SIDE.

Funeral of Rev. T. L. Sails—Land Warrant Received—For Charity's Sake—Church Dedication.

The remains of the late Rev. T. L. Sails were brought from McMinnville last evening to East Portland. He died in McMinnville on Sunday and he will be buried to-day at 11 A. M. from the Methodist church, the services being conducted by the Rev. I. D. Driver. There was some difference of opinion concerning his ailment among the attending physicians. Dr. Stephen Young held he had cancer of the stomach, and an examination after death showed that his diagnosis of the case was correct. He was 47 years of age, and leaves a wife and three children. Rev. Sails was a man of singular purity, sincere, earnest and impulsive—ready to make any sacrifice when called upon to perform a duty. He began work as a minister of the Methodist church on the wide district east of Hubbard, when that country was but sparsely settled. From there he went to more important stations, and at one time was pastor of the East Portland church. Some years ago he became an evangelist, with no fixed station, going where it seemed to him, duty called. He was not a logician—but he impressed an audience with his earnestness, which is often more effective than the cold forms of logic.

LAND WARRANT RECEIVED.

John Collins, of this city, has received his land warrant for 160 acres of land from John C. Black, commissioner at Washington, to which he was entitled as an Indian war veteran under an act of congress, March, 1855. The warrant is numbered 114,928. Collins was a member of Company B, Oregon Volunteers, Nathan Olney captain, in the Snake river Indian war of 1854. Not desiring to locate the warrant himself, Collins has sold it to Mr. C. N. Rankin for a good round sum. It was a fitting recognition of his services to the country in the early days. Capt. E. Baughman, Wm. Harkins and Aurora Shemway, of this city, are Indian veterans, and have made application for warrants under the same act. Collins, who is now familiar with the method of proceeding, has the papers in hand and will push them through.

FOR CHARITY'S SAKE.

Sunday a lady came to the Infants' Home in this city, having in her charge an infant which she said was one month old. She stated that the child was of respectable parents, an orphan, both father and mother being dead. The mother started from Missouri about six weeks ago, the child being born on the way, and the mother dying at the time. The managers of the home took the little waif and now ask the people of East Portland to contribute clothing for the child, as it is practically without any. They hope soon to find a permanent home for the child.

ROLLINS MARRIES MINNIE.

It was reported several days ago that the case against B. F. Rollins had been compromised by the marriage of the defendant with the girl whom he was charged with seducing. Yesterday Mrs. Chapman, who lives in this city, was interviewed and confirmed the report of the marriage of her daughter with Rollins. The girl was at her mother's house when the reporter called and said she and Rollins were married at Gresham, and they would make their home in Gresham, where he had gone to secure a house.

CHURCH DEDICATED.

The new Congregational church in Albina was dedicated last Sunday in the presence of a large audience. An able and effective discourse was delivered by the Rev. Geo. H. Atkinson, of Portland. The new society has a fine church edifice, built on two lots and a commanding location, costing $2600. The value of the lots is $750. A new bell, costing $340, and an organ, costing $90, have been purchased. The church starts under most favorable circumstances, and out of debt.

CHINESE PHEASANT.

Yesterday a very peculiar looking bird was noticed on Seventh street, near Dr. Wigg's office. It was quite a large bird, of brown color, a spreading tail and white ring about the neck. Dr. Wigg pronounced it a Chinese pheasant.

NOTES.

H. Paese has removed his meat market to the corner of Fifth and L streets.

The street commissioner of Albina is erecting sixteen lamps at various points in the city.

The special gospel meetings in the Baptist church continue each evening through the week. Preaching by Rev. A. Le Roy, recently from Buffalo, N. Y.

Rev. George Nottage is having cleared the grounds on the northeast corner of Eighth and I, preparatory to starting the foundation for a $[illegible] residence on that corner.

Mr. C. S. Blakeney has sold his house and lot on Sixth and Asylum to Mr. Montgomery, of Forest Grove, and will remove to Spokane with his family, where he will make his home.

The lumber recently ordered from Hogue's sawmill, to be delivered on the railroad at J street, will be used to rebuild the bridge between J and I streets, and also to replace the one between I and J streets.

The Presbyterian church in the United States proposes to raise $1,000,000, to be devoted to ministerial relief. Last Sunday, at the Centennial exercises in the Presbyterian church in this city, $43 30 was raised for this purpose.

THE STAGE.

SUCCESSFUL PRODUCTION OF "SHE" AT THE NEW PARK.

It has almost become the rule in Portland, that, when a dramatic company has been heralded by the most fulsome advance notices and flaming four-sheet lithographs posted all about town, the advent of the company itself, and its performances, have fallen far short of their promise. However applicable this observation may have been to other organizations, it is a pleasure to say that it does not apply in the least to the Webster-Brady Dramatic Company, which began its engagement at the New Park theater last night in Mr. Wm. A. Brady's dramatization of H. Rider Haggard's sensational romance, "She."

The house was filled above and below, and the applause which greeted the several finely managed scenic effects was unstinted.

To speak first of Mr. Brady's work in the arrangement of the scenes he has selected, he has used excellent judgment. He has grasped the salient and most dramatic portions of the story, and confining himself to the author's exact language, has constructed a play which, as well to those who have as to those who have not, read the original story, maintains the interest to the end. But, without doubt, what made the production the success it assuredly proved, was the splendid manner in which the play was staged. No such perfect scenic effects have ever been witnessed in Portland as those which are produced in "She," and when the limited facilities of the New Park stage are considered, the result was simply surprising. The "Hot Pot Cave," the catacombs, the Palace room of She, and, best of all, the Ruins of Kor, were most superb pieces of scenic work.

The company, several of which are familiar faces in Portland, is a well balanced one and fully equal to the demands of the play.

Miss Charlotte Tittel in the role of Ayesha, "She-who-must-be-obeyed," was a genuine dramatic surprise. It seems but a short time ago that she was barely on the threshold of her profession, but from her work of last evening it can easily be seen what rapid strides she is making towards the top. A better selection for the role of She could not easily have been made. She looks the part and throws into her acting of it all the dramatic fire consistent with a true conception. In the scene with Holly in the third act she was thoroughly womanly and her utterance of the curse against Amenartis was dramatic in the extreme. Her scene with Ustane in the fourth act was admirably given, as also was that of entering the fire of life, which closed the play.

Miss Laura Biggar has greatly improved since her first appearance in Portland. As Ustane, the faithful, she presented a picture most pleasing to look upon, and gave an intelligent and appreciative interpretation of the role. Her song in the second act received a handsome floral tribute, and was well sung; but it would be much more enjoyable if she did not throw herself about, so to speak, while singing.

Mr. J. W. McConnell as Vincey *pere*, and later Leo Vincey, gave a very intelligent and conscientious rendition of the part.

Mr. George P. Webster gave a very pleasing and effective interpretation of the character of Holly. His facial make-up was exceedingly good, and his rendering of his lines as well.

Mr. Wm. A. Brady as Job furnished the comedy, and his actions and speeches never failed to bring a laugh, even though they were, at times, Bradyish.

A clever bit of character work was the acting of Buena, the hag, by Miss Margaret Marshall. She was the hag in look action and speech.

Mr. Wm. H. West as Billali, the high priest, though lacking somewhat in priestly dignity, was good in makeup and action.

The remainder of the cast was equal to their work.

"She" again to-night.

LOCAL NOTES.

Alpine lecture at Masonic hall this evening.

John Nelson, a German, was admitted to citizenship by Judge Stearns yesterday.

The trial of Wah Dock, who burglarized Dr. Frebn's office, will commence in the criminal court to-day.

Remember Prof. Henderson's lecture at Masonic hall this evening on "Our Mountains and Some of Their Trees."

Stephen Livingston, a Britisher, filed with the county clerk yesterday his declaration of intention of becoming a citizen.

The new steam schooner, which Messrs. Montgomery & Colwell are building at Skamokawa, W. T., will be ready for launching in a week.

A large quantity of smelt was received here yesterday. The Indian who brought them up says a new shoal has reached the mouth of the Cowlitz.

Mr. W. A. Jacobs, who advertised a lost satchel, containing a journal of accounts in THE OREGONIAN, had it returned to him by letter carrier No. 4, and is happy.

The board of officers of the First regiment, O. N. G., will hold a meeting March 7 to elect the successor of Maj. E. R. Adams, resigned. Several persons are named for the position.

The new hose cart for Grant Engine Company No. 2, of East Portland, went across the river yesterday. It is a handsome, light-running cart, of which the fire boys may well feel proud.

Ore sacks, for use in the Cœur d'Alene mines, are furnished from this city. Mine-owners of course give Portland the preference, and they get sacks as cheap as they can be obtained in Chicago.

Battalion drills will be resumed next week at the regimental armory. The first drill will be participated in by the Portland companies—A, E, G, I and K—and will take place on the evening of March 5.

Mr. George De Wolf, the Englishman who had such an unpleasant experience in this section a year or so ago, having been robbed by a fellow named Barnett, whom he had employed, of $2000, went back to England some time since and has become president of a company who have control of a newly-patented smelting apparatus. Mr. De Wolf writes to a friend here that he is coming out before long to put up a smelter at Vancouver, that city having offered a bonus of $7000 and the Dominion government $15,000 additional for the work.

Judge Stearns yesterday granted Sophia Stolte a divorce from Fred Stolte, for desertion and failure to provide. She was also awarded the custody of their three children. They were married in Germany June 1, 1877.

Col. Milton Weidler, clerk of the board of fire commissioners, received a package from the East yesterday containing six gross of brass buttons for the members of the department. The buttons are similar to those now in use.

Mr. J. W. Conn, of Waitsburg, W. T., has been appointed a railway postal clerk, and is now in the city ready to enter at once upon his duties. His run will be between Portland and Helena, his home office being Portland.

A large lot of fine halibut have been received by Wm. McGuire & Co., corner of Third and Morrison streets, who are again the first to receive these favorite fish. They also received last evening a large lot of the new run of Columbia river smelt.

The O. R. & N. Co. will open an office in Seattle March 1 with Edward Larkin as agent. Frank Haffey, who has been connected with the freight department in this city, left for Seattle by last night's train to take a position in the new office.

The fire commissioners have issued a 300 page book containing their annual reports from 1883 to 1887 inclusive, and other facts pertaining to the fire department. Only a dozen copies were ordered and will be distributed among the commissioners and officers of the department.

Some gentlemen of baseball inclinations are negotiating for a ten years' lease of the White house grounds for a baseball park. The grounds are close to the city and can be reached in half an hour by the steamer and the narrow gauge railroad. This place has been selected, as the Oaks park will be inaccessible this year.

Parkkeeper Myers, of the City park, complains that dogs are a nuisance in the place. He is getting ready to plant out a lot of flowers, and does not like to have dogs, great and small, scampering over the beds. A good many people, when they go out for a stroll, like to have their playful dogs to bear them company, and it is doubtful if any of them will leave the animals at home out of respect to the flower beds in the park.

PERSONAL.

Mr. F. W. Paine, of Walla Walla, is at the St. Charles.

Mr. Henry Housman returned from California yesterday.

Mr. W. N. Ladue, the Salem banker, is stopping at the Esmond.

Mr. Wm. Thompson, a prominent lawyer of Quincy, Ill., is in the city.

Mr. J. G. Megler and Mr. A. W. Barry, Astoria cannerymen, are in the city.

Mr. George W. Weidler is expected home from Southern California next week.

Mr. C. S. Wright, of the Occident hotel, Astoria, is stopping at the St. Charles.

Mr. John K. Gaither, a well known merchant of La Center, registered at the Esmond yesterday.

Mr. R. W. Mitchell will leave for New York Thursday on business and will be absent a month.

Mr. J. D. Sherwood, a prominent real estate operator of Spokane Falls, arrived in the city yesterday.

Mr. F. H. Barnard and wife, of Walla Walla, formerly of this city, are stopping at the Esmond for a few days.

Capt. W. H. Whitcomb, who was pilot on the burned steamer Telephone, but now a restaurateur of Astoria, was in the city yesterday.

Mr. John Gibbon, Jr., son of Gen. Gibbon, of Vancouver barracks, has recovered from his late severe attack of pneumonia, and will return home in a few days. Capt. C. A. Woodruff left for Walla Walla Sunday to accompany him to Vancouver.

Mr. C. Sweet and wife, of Colorado Springs, Col., were in the city Sunday and expressed themselves as highly pleased with the metropolis. They have gone to Spokane Falls and will go to the Sound thereafter.

Mr. Wm. Dunbar, the well-known commission merchant, who went to China and Japan last November to establish agencies there for the sale of Royal brand flour, arrived at Vancouver last Saturday and will be home to-morrow morning. His friends expect to see him return in the costume of a mandarin of the yellow button.

COMMERCIAL.

MONDAY, Feb. 27.

Merchandise received or soon to arrive by rail: Car bridge stuff, 4 cars implements, 2 cars wagons, 60 cs sad irons, car furniture, 36 bxs 5 sks 23 bbls glassware, 216 doz forks and hoes, 38 bdls grain cradles, 100 bdls baskets, 100 bxs toothpicks, 84 bxs sew machines, 12 wash do, 1 safe, 25 bags hair, 4 organs, 6 cs hosiery, 4 cs neckwear, 3 cs clothing, 2 cs corsets, 52 cs hats, 42 cs dry goods, 13 cs millinery, 39 trunks, 9 cs shirts, 108 cs boots and shoes, 5 cs yarn, 20 bls bagging, 2 cs cigarettes, 2 cs cigars, 78 cads 30 butts 143 cs tobacco, 50 cs 60 ctes hams, 74 sks bacon, 100 cs oysters, 35 cs pickles, 4 cs candy, 57 sks seed.

The supply of wheat in sight in the United States east of the Rockies is given by telegraph February 27 as 38,461,000 bushels, a decrease for a week of 1,[illegible] bushels. The decrease for the same week last year was 2,2[illegible] bushels, leaving the total supply 57,627,000 bushels.

PRODUCE RECEIPTS—Past 48 hours include 32 457 ctls wheat, [illegible] bbls flour, 1264 ctls oats, 240 ctls barley, 215 sks flaxseed, 834 ctls bran, 354 ctls millstuff, 250 sks potatoes, 11 814 lbs hides, 16 bxs apples, 95 cs eggs, 1 cs butter, 2 cars hay.

EXPORTS—To San Francisco per str Columbia include 28,933 ctls wheat, 419 ctls oats, 600 hf sks flour, 600 ctls bran, 600 ctls shorts, 3372 sks potatoes, 366 sks 168 ctes onions, 171 bxs apples, 1 bl 4 sks hops, 4 rls leather, 6 kegs kraut, 12,552 lbs scrap iron, 5334 lbs scrap tin, 75 bls straw paper, 150 sks bones, 5 cs flannels, 3 cs cassimeres, 1 cs 4 bls blankets, 3 cs oil clothing, 22 cs mineral water, 4 bls deerskins, 2 cps chickens, 280 green hides, 4 bls pelts, 1 2 dry hides, 22 horses, $1197 treasure.

FREIGHTS—The Martha Fisher, 811 tons, arrived, seeking, and the open spot list is up to 8983 tons, all of which is iron. Of 14 vessels with business, 2 have filled up and 3 are about full. The en route list foots up 34,756 tons.

WHEAT—As advices are of little interest, and the local market extremely dull, the situation is a quiet one. Holders sell but little at prices that can be paid for export.

OATS—The placing of so much of the receipt in a position to ship has helped reduce the local stock but not to an extent that helps prices.

POTATOES—Shipments by yesterday's steamer, 3372 sacks. Three steamers in ten days have taken out 12,366 sacks. The market is weak and rather slow.

EGGS—Quote 13c. No report of sales at less. Receipts about equal demands, but there is no reduction of stock.

CHICKENS—Wanted to-day and in light supply. Full prices easily had.

MARKETS BY TELEGRAPH.

NEW YORK STOCK MARKET.

NEW YORK, Feb. 27.—Stock market was more active, especially in the early hours to-day, during which time nearly half the entire day's business was transacted. Prices moved off fractionally and in some cases for greater amounts. The Burlington strike had comparatively slight effect on the market. Everything is somewhat lower to-night. Governments are dull and heavy.

MONEY, BONDS AND STOCKS.

NEW YORK, Feb. 27.—Money on call easy at 2 @2½; closed offered 2½. Prime mercantile paper, 4½@5½. Sterling exchange, dull and firm; $4 85 for 60-day bills, $4 87 for demand.

BONDS.

SAN FRANCISCO MARKETS.

SAN FRANCISCO, Feb. 27.—Receipts—Wheat, 26,000 ctls; flour, 31,000 qr sks; barley, 6100 ctls; oats, 1500 ctls; potatoes, 5030 sks.

Freight—Grain tonnage quiet, market steady. Tonnage statement: In port engaged 41,100 tons; in port disengaged 45,000 tons; listed to arrive 240,000 tons.

Wheat—The spot market rules quiet at steady prices. Exporters have done little the past week in the way of taking up new tonnage consequently the demand for wheat from shippers is light. Offerings are fair; No. 1 shipping $1 30@1 31¼. Options quiet and prices about steady. Sales: No. 1 white, buyer season, 800 tons at $1 38¾, 200 tons at $1 38¾ on morning call, and 1200 tons at $1 35¾ on afternoon call.

Barley—The spot market is steady for feed descriptions and firm for choice. Receipts are moderate; demand good for best grades. Quote No 1 feed 80@82½c. Buyer season opened 85¾c, seller year 79c. Buyer season closed 85¾c.

[illegible] only about their requirements. Quote feed choice $1 40@1 47½, fair to good $1 40@1 42½.

Potatoes—Market overstocked and weak. Peerless $1 05@1 15, Garnets 90c@$1, Burbanks $1 10@1 25.

Butter and eggs—Easy; market well supplied.

NEW YORK MARKETS.

NEW YORK, Feb. 27.—Wheat opened a shade higher; 89⅞c March, 90⅝c April, 91⅛c May, 91⅞c June. At noon, 89¾c cash, 89⅝c March, 90⅜c April, 91¼c May, 91⅞c June. Closed 89¾c February and March, 90⅝c April, 91½c May.

MISCELLANEOUS.

NEW YORK, Feb. 27.—Petroleum closed steady at 93¾c; highest price, 94c; lowest 91⅞c; opened, 92c. Sales, 3,982,000 barrels.

Mining shares: Amador $1 50, Caledonia Black Hills $1 80, Dunkin $1 15, Eureka $11 25, El Cristo $1 30, Homestake $11 25, Mexican $5 12½, Mono $1 75, Mount Diablo $1 60, Navajo $1 75, North Belle Isle $7 12½, Ontario $27, Prousita $2, Standard $2 60, Sutro Tunnel 13c.

Hops—Dull.

Sugar—Firm and more active; Manila, 4¾c; extra Manila, 4 9-16; Muscavado, 4½c for 89 test; refined, firm and in good demand; C, 5⅜@5¾c; extra C 5½c; white extra C, 7⅜c.

Copper—Dull and weak; lake, $16 12½.

Lead—Firm; domestic, $5 12½@5 25.

Tin—Quiet and steady; straits, $33 65.

Coffee—Spot fair Rio, nominal. Options last active and 40 and 50 points lower. Sales, 95,250 bags. February $11 60, March $10 90@11, April $10 80@10 90, May $10 70@10 85, June $10 50@10 60, July $10 10@10 15.

CHICAGO MARKETS.

CHICAGO, Feb. 27.—Wheat opened steady; 75¾c February and March, 80⅝c May. At noon 75⅞c February and March, 80¾c May. Closed 75¾c February and March; 76⅛c April, 80¾c May.

Provisions—Pork, $14 02½ May; lard, $7 80 May; ribs, $7 35 May.

CHICAGO LIVE STOCK MARKET.

CHICAGO, Feb. 27.—Cattle—Receipts, 4000; excited; prices 20 higher; shipping steers, $3 30@5 30; stockers and feeders, $2 40@3 75; Texas cattle, $2 40@4 25.

Hogs—Receipts, 9000; stronger and 5@10c higher; mixed, $5 10@5 40; heavy, $5 35@5 60; light, $4 95@5 35.

Sheep—Receipts, 3000; stronger; natives, $3 60@5 40; western, $4 80@5 35; Texans, $3 50@4 90.

VISIBLE SUPPLY OF GRAIN.

NEW YORK, Feb. 27.—The visible supply of grain February 25 was: Wheat 36,461,000 bushels, corn 8,848,000, oats 4,672,000, rye 327,000, barley 2,487,000.

BOSTON STOCK MARKET.

BOSTON, Feb. 27.—Closing prices: Atchison & Topeka railroad, 98; Burlington & Quincy, 125¾; Mexican Central, common, 14¾; do first mortgage bonds, 65⅜.

Foreign Markets.

BEERBOHM GRAIN REPORT.

LONDON, Feb. 27.—Farmers' deliveries past week: Wheat, 55,300 qrs. at an average price of 30s 2d per quarter. Wheat cargoes off coast, steady. Cargoes on passage and for shipment, steady. Mark Lane: English wheat turn dearer; foreign wheat, steadily held; English and American flour, quiet.

LIVERPOOL, Feb. 27—Spot wheat quiet but steady. 3 P. M.—Spot wheat market firm, with a good demand. Options: No. 1 California, 6s 9½d April, 6s 9¾d May, 6s 10d June and July.

PARIS, Feb. 27.—Spot wheat and flour steady. French country markets, firm.

MARK LANE REVIEW.

LONDON, Feb. 27.—The *Mark Lane Express* says: English wheat is rather firmer, cold weather increasing the demand. Foreign wheat is dull. There is no demand for flour. Other cereals are lower.

LIVERPOOL GRAIN MARKET.

LIVERPOOL, Feb. 27.—Wheat, steady; demand fair; holders offer moderately. Corn, quiet and unchanged.

SHIPPING INTELLIGENCE.

SHIPPING NOTES.

There is some mistake in the telegraphed report of the arrival at San Francisco of the British ship Star of Italy from London in a run of ninety-one days. The vessel left London November 14, and made the run in 103 days, which is very good time itself. The sailing date of November 14 must be correct, for it is so stated in all the shipping lists.

The steam schooner building at Skamockawa will be launched in about two weeks. When rigged she will load lumber and go to San Francisco for machinery. Engines capable of driving the vessel at a speed of about ten knots will be furnished, so that the vessel will be more of a steamer than schooner.

British bark Martha Fisher, 132 days from Maryport, England, with steel rails, arrived in yesterday. The vessel comes inward to Balfour, Guthrie & Co., and the cargo is for the O. R. & N. Co. The Derby Park is out 149 days from the same port, the Mary Low 107 days and the Gartmore 103 days, four others being behind the Gartmore.

DOMESTIC PORTS.

SAN FRANCISCO, Feb. 26 and 27.—Arrived—Br ship Star of Italy, London; str Willamette Valley, Yaquina bay; str Willamette, Seattle; str Arago, Coos bay. Sailed—Ship John R. Kelly, Manila; Fr bk Delphine Melanie, Melbourne; Br bk Samoa, Portland; Br bk Port Jackson, Australia; Br ship Parthenope, Cork; schr W. S. Bowne, Honolulu; str San Pedro, Tacoma; schr Wing and Wing, Coos bay.

ASTORIA, Feb. 27—Oklahama left up with Br bk Martha Fisher 9:20 A. M. 6 P. M.—Rainy; wind southeast.

FOREIGN PORTS.

QUEENSTOWN, Feb. 25—Arrived—Br bk Nith, Portland.

Constipation, which gives rise to many graver troubles, is cured and prevented by Carter's Little Liver Pills. Try them and you will be convinced.

ever Pu

Till to-morrow, to-day's duty. If you have a Cold, Cough, Bronchitis, or any form of Throat or Lung disease, do not neglect it. Ayer's Cherry Pectoral, if promptly taken, will speedily relieve and cure all ailments of this character.

Two years ago I took a severe Cold, which, being neglected, was followed by a terrible Cough. I lost flesh rapidly, had night-sweats, and was soon confined to my bed. A physician was called, but the medicine he prescribed afforded only temporary relief. A friend advised the use of Ayer's Cherry Pectoral. I began taking this medicine, and before finishing the first bottle was able to sit up; four bottles effected a perfect cure.—Geo. W. Dick, Newton, Mass.

In several cases of Bronchitis, caused by exposure to damp and cold weather, I have used Ayer's Cherry Pectoral. It is an anodyne expectorant of great value and usefulness to patients of all ages. Its certainty of action, and its safety as a household remedy, are forcible arguments in its favor. No other cough preparation does its work so quickly and satisfactorily.—C. E. Hoyt, M. D., New Orleans, La.

Ayer's Cherry Pectoral,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price $1; six bottles, $5.

Or the Liquor Habit, Positively Cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. [illegible] the Specific, it becomes an utter impossibility for the liquor appetite to exist. For sale by SNELL, HEITSHU & WOODARD, Druggists, Portland, Or.

[illegible] & CO.

188 First Street, Portland, Or.

All Chronic Diseases of MEN and WOMEN Successfully treated.

LOST MANHOOD Nervous and Physical Debility, Exhausted Vitality, Seminal Weakness, Spermatorrhœa, Impotency, Gonorrhœa, Gleet, Syphilis, Premature Decline, WEAKNESS IN WOMEN, and all Functional Derangements that result from youthful follies or excess in after years.

URINARY Kidney and Bladder Troubles, Weak Back, Gonorrhœa, Gleet, Cystitis, Varicocele, Stricture, etc., promptly and safely cured. No nauseous medicines given, nor strong injections used, which cause stricture. Charges reasonable.

NERVOUS Debility, Loss of Vigor, Seminal Losses, Night Emissions, Despondency, etc., cured.

YOUNG MEN suffering from the effects of youthful follies or indiscretion, should avail themselves of our treatment, the greatest boon ever laid at the altar of suffering humanity. Will guarantee a positive cure in every case.

MIDDLE-AGED MEN There are many troubled with too frequent evacuation of the bladder, accompanied by a smarting or burning sensation, on examination, the urine deposits a sediment, and sometimes albumen is present. The color varies from a bright or reddish to even a milky hue, the patient experiences a weakening of the system in a manner he cannot account for. This is the second stage of seminal weakness. Many die of this difficulty, ignorant of its cause. A perfect cure and healthy restoration guaranteed. Office hours 10 A. M. to 5 P. M. and 7 to 8 P. M.

N. B.—Persons unable to visit us may be treated at their homes, by correspondence. Medicines and instructions sent by mail or express. Consultation free.
